YARD'S END DEVELOPMENT

1990-1995: *Balanced Growth*

In the first phase of Yard's End development, it is envisioned that 550,000 square feet of medical research space will be developed at Yard's End. In addition, a 390 room hotel with conference facilities is planned on Parcel 4 of Yard's End. The planned relocation of the Aquarium to Dry Dock 5/Parcel 5 will broaden the economic base to include off-peak activities within the Navy Yard. The total development will be limited to that already completed or underway in the Navy Yard.

As a result of these three projects alone, 2,400 permanent jobs will be created. In accord with the city's resident jobs policy, 50 percent of these jobs are expected to be held by Boston residents. Furthermore, a key aspect of the Navy Yard Master Plan is a concerted employment strategy to maximize participation of Charlestown residents in new employment opportunities. A goal of 25 percent of the new jobs created to be filled by Charlestown residents has been established.

The Components of the Plan: New England Aquarium

Relocation of the New England Aquarium to Dry Dock 5/Parcel 5 will create a major public attraction at Yard's End. In 1988 alone, over one million adults and children toured the present Central Wharf facility — double its planned capacity. The Dry Dock 5/Parcel 5 site provides an opportunity to construct an expanded facility that can accommodate the growing number of visitors and maintain the New England Aquarium's world class position. It also ensures continued presence of a

pre-eminent waterfront designation on Boston Harbor.

The Navy Yard was identified as a potential new home for the Aquarium by its Board of Trustees in September of 1988. Following an extensive review period, during which the New England Aquarium and their consultants met on many occasions with the Charlestown Neighborhood Council and the Charlestown community, the Board of Trustees voted to pursue relocation at Dry Dock 5/Parcel 5. The Aquarium will continue to work with the Charlestown Neighborhood Council and the City of Boston to shape the details of their program.

The relocation of the Aquarium will bring with it many economic

benefits for Charlestown, Boston and the region. The Aquarium currently employs 174 people at its Central Wharf location, 37 percent of whom are Boston residents. A relocated Aquarium at Dry Dock 5/Parcel 5 will result in a 100 percent increase in the number of job opportunities. In addition, 50 percent of the 1,360 construction jobs created will be awarded to Boston residents in accord with Mayor Flynn's Boston Jobs Policy.

Economic benefits will also result from the Aquarium's relocation and expansion plans. The expansion is expected to increase local annual day trip spending by Aquarium visitors from \$6,500,000 to \$9,000,000.

Yard's End

(Continued from previous page)

Charlestown non-profits and businesses will be given priority for the creation of a festival marketplace in a relocated Building 75, which will capitalize on its proximity to the new Aquarium.

The new Aquarium will sponsor expanded educational programs for area school children. In addition, the Aquarium is discussing job training and educational programs for marine-related careers with the Bunker Hill Community College. An Elderly Volunteer Group program will be established.

The Dry Dock 5/Parcel 5 site will allow the Aquarium to construct the world's most technologically advanced facility for the study and exhibition of the marine environment. It will include a glass enclosed underwater walkway that takes people through the main exhibition tank with whales swimming above and below. The design is capped by a glass roof reminiscent of the 19th century Crystal Palace. This roof will be supported by structures resembling the masts of sailing ships giving the Aquarium a naval theme that will be recognizable from both land and sea. Ground floor activities include a bookstore, food service, and marine exhibits to enliven the surrounding open space and 2,500 linear feet of Harborwalk.

A major water transit service adjacent to the new Aquarium will help mitigate traffic impact on the Charlestown community. Water shuttle service to Central Wharf will be provided every fifteen minutes to encourage City visitors and residents to enjoy a boat ride to the Navy Yard as part of their Aquarium experience. The new Harborwalk signage system will direct people from the Freedom Trail to the Aquarium to encourage visitation by the large number of tourists who now walk to the USS Constitution from downtown Boston.

A dynamic not unlike that between two anchor stores in a shopping cen-

ter will be established between the Aquarium at Dry Dock 5 and the USS Constitution. In addition, major public open spaces at Shipyard Park and Yard's End will further reinforce the cultural/recreational magnets at either end of the Charlestown Navy Yard, thus maximizing public access throughout.

Pedestrian activity is expected to increase along First Avenue as people walk between the two attractions. This will enhance the viability of service retail uses on the ground floor of existing and new buildings. A festive marketplace, with preference for Charlestown businesses and non-profits, is planned adjacent to the proposed new Aquarium and would benefit greatly from the increase in pedestrian flow.

THE ADOPT-A-STATUE PROGRAM

The goal of Adopt-A-Statue is to achieve funding for the restoration of thirty-nine pieces of outdoor public art and to establish a permanent maintenance endowment which would provide for the annual cleaning and maintenance of sixty-nine pieces.

GROUNDBREAKING ON LORNE STREET

City and State officials joined community residents to celebrate the groundbreaking for new affordable housing on Lorne Street in Dorchester. Lorne Development Associates, a joint venture of the Lena Park Community Development Corporation and Faith Pentecostal Church will begin construction of 60 limited equity cooperative units on a five acre site in the Franklin Hill area that has been vacant for more than 20 years.

"In these difficult days, it is important that we not lose sight of the hard work that is being done by so many people that live in our neighborhoods, neighborhoods that are being torn apart by the violence that is plaguing our city," said Mayor Raymond L. Flynn. "These new homes will stand as a symbol for the future. And we will continue to look forward with hope, knowing that groups like the Lena Park CDC are working with us to insure that that future will hold more opportunities for this community."

The new community will be known as the Brown-Kaplan Townhomes, after the Chairman of the Lena Park CDC Board of Directors, Judge Frederick Brown, and Leonard Kaplan of Combined Jewish Philanthropies. The project is the result of a creative collaboration between the Lena Park CDC, Faith Pentecostal Church, the Combined Jewish Philanthropies, the City of Boston's Public Facilities Department (PFD) and the State's Executive Office of Communities and Development (EOCD).

"For many years, Lorne Street has been a symbol of urban neglect and waste," said Secretary of Communities and Development Amy S. Anthony. "Now, because of a dedicated partnership which has brought together the state, the City of Boston and the mem-

bers of the Lorne Development Associates, this site offers new hope for families struggling to find affordable housing. This project and others like it statewide stand as visible proof that state and local investment pays in real opportunities."

Funding for the \$9.6 million project includes nearly \$1 million in linkage, \$91,000 from PFD's Management and Technical Assistance Programs, \$1.2 million from EOCD, with the bulk of the financing through the Massachusetts Housing Finance Agency for construction financing and the permanent mortgage.

Forty-four of the 2-, 3-, and 4-bedroom cooperative units will be affordable to Section 8 and 707 certificate holders. Sixteen of the units will be sold as market rate shares. The contractor for the project is John Cruz; the architect is Chisholm-Washington Associates. Through a Community Development Action Grant, new roads, Wilbert Road and Wilbert Circle will be constructed as part of the new community.

"A lot of people might look around and see a dead-end street surrounded by vacant land," said Lisa G. Chapnick, Director of the City's Public Facilities Department. "But when we come back in a year to celebrate move-in day, we will see with our eyes what today we see in our minds: homes and streets and sidewalks with trees and children playing."

THREE PROJECTS OK'D BY PFC

At a meeting of the Public Facilities Commission, three developers were given the go-ahead on projects that will result in nearly 100 units of new housing in Dorchester. The projects are part of Project 747, Mayor Flynn's continuing initiative to build affordable housing on vacant city-owned lots.

New Boston Housing Enterprises of Jamaica Plain will begin construction this month on 20 units of affordable housing on Capen and Evans Streets. The Public Facilities Depart-

ment sold seven parcels of vacant land, totalling approximately 37,000 square feet, to the developers for \$1. These sites will be added to 14,000 square feet of land previously acquire by New Boston Housing Enterprises. Fourteen of the 20 2- and 3-bedroom duplexes to be built as part of this \$2 million project will be affordable to low- and moderate-income first-time buyers, with prices ranging from \$89,000 to \$101,000. Construction financing for these new homes, expected to be complete by year-end, has been provided by the Blackstone Bank.

Paul Parks and Associates was given the green light for a new housing development that will be named for Mr. Parks' mother. Construction on the Hazel Parks Estates is scheduled to begin June 1, and will be carried out in two phases. The 48 1- and 3-bedroom units are 100 percent affordable to low- and moderate-income families, with prices from \$85,000 to \$99,300, and low-interest mortgages through the State's Homeownership Opportunity Program. The Public Facilities Department sold the more than 100,000 square feet of vacant land on Arbutus, Balsam and Lucerne Streets for \$1, and has also committed more than \$1 million in linkage funds to the project.

Also granted approval at the meeting was the sale of a building at 6 Hartford Street to the Veterans' Benefits Clearinghouse. The VBC will rehabilitate the building to house 18 formerly homeless veterans. The VBC is a not-for-profit organization created by a group of black Vietnam-era veterans who, while attending Boston State College in 1977, came together as the result of their shared experiences as minority veterans making the transition back to civilian life. The VBC has also been designated as the developer for six former HUD properties at 495-505 Blue Hill Avenue in the Grove Hall section of Roxbury. Currently abandoned, the buildings will be completely rehabilitated into 30 rental apartments.

SMALL BUSINESS LOAN PROGRAM EXTENDED

Merchants and business owners located along the route of the old El in Jamaica Plain, Roxbury, and the South End, now have until December 31 to take advantage of a low-interest loan program administered by the City's Public Facilities Department (PFD) and funded by the MBTA. Small (less than 50 employees) businesses which have been in operation for at least one year prior to the MBTA's enhancement activities are eligible for loans that can be used for a wide range of physical improvements.

"This loan program encourages neighborhood businesses to modernize just as the T has modernized," said Lisa G. Chapnick, director of PFD. "With the El gone, merchants have the opportunity to improve landscaping, make structural repairs, and beautify their storefronts. This program is a continuation of PFD's long-time commitment to helping neighborhood businesses throughout the City keep up with the changing urban environment."

McMann Oil, a heating oil firm in Jamaica Plain, has already taken advantage of the Small Business Loan Program.

"Thanks to the friendly and professional presentation of this program, I learned I'd be able to make a necessary expansion to my business," said Jay McMann, owner of McMann Oil. "A low-interest loan cleared the way for me to purchase another community-based oil company, so I could keep my business in Jamaica Plain."

The commercial development loan program also offers financial counseling to applicants whose projects have been approved for loan consideration, architectural assistance with plans and services necessary to bring a project to completion, and expedition of any necessary IPOD and zoning variances, as well as assistance with the community review process.

In order to be eligible for a loan, neighborhood businesses must meet eligibility criteria stipulated by the participating banks, Shawmut and Bank of

Boston. These include the following: 20 percent of the development cost must be up-front cash equity; and the term of the loan may not exceed the length of the business' lease. Both property owners and lease holders are required to put up collateral for loans.

If you believe your business is eligible for this Small Business Loan Program, please call PFD's Neighborhood Development Division at 725-3569 for more information.

LIBRARY OF CONGRESS EXHIBIT AT BPL BICENTENNIAL OF U.S. CONGRESS

The Boston Public Library will celebrate the 200th Anniversary of the United States Congress during June with a month-long Library of Congress exhibit, an address by Congressman John Joseph Moakley (D) of South Boston, and a five-part documentary film series.

The exhibit, "To Make All Laws: The Congress of the United States," is a Library of Congress/American Library Association traveling exhibition made possible by a grant from the National Endowment for the Humanities, Washington, D.C., a Federal Agency and will be on display in the Great Hall of the Central Library in Copley Square from May 30th to June 26th. Drawing on the

unique and important primary source materials from Congress' own library, the exhibition illuminates the development of Congress as an institution of government and its achievements during the first two centuries of our nation's life and is divided into three main sections.

The first, "What is Congress?" deals with the origins and the creation of Congress and how it works as an institution. The second, "What has Congress done?" looks in depth at some of the achievements of Congress since its founding 200 years ago. This period is broken down into smaller segments, such as "The Age of Giants, 1811-1850," "Gilded Age, 1877-1900," and "The Modern Era, 1974-present." Portraits, cartoons, maps, posters, manuscripts, and other materials help to illuminate the themes of each time period. "The Modern Era," for example, includes an interactive component consisting of interviews with present and former members of Congress.

The third section, "How do we see Congress?" focuses on ways in which the American people observe and learn about the Congress. A 20-minute film, drawn from the Library of Congress' collections will combine excerpts from dramatic film and television productions, in a presentation entitled "Congress in Fact and Fiction."

Congressman Moakley will deliver his lecture on Monday evening, June 4th at 6 p.m. in the Rabb Lecture Hall in Copley Square. A member of Congress representing the 9th Congressional District since 1972, he presently serves as chairman of the House Rules Committee and majority deputy whip.

The film series will be held on Monday and Tuesday evenings at 7:30 p.m. in the Rabb Lecture Hall starting June 4th, and will focus on Congress and its achievements. The opening film, "Mr. Smith Goes to Washington," was the winner of the 1939 Academy Award for Best Original Story. The remaining films in the

series are all award-winning color documentaries. The film schedule:

June 4th — "Mr. Smith Goes to Washington" (1939) 103 min/b&w.

June 5th — "The Library of Congress" (1979) 90 min/color.

June 7th — "Faces of Freedom" (1976) 27 min/color and "Slow Fires: On the Preservation of the Human Record" (1987) 58 min/color.)

June 12th — "The Congress" (1988) 90 min/color.

June 14th — "Super Chief: The Life and Legacy of Earl Warren" (1990) 88 min.

The exhibit is particularly appropriate for junior high and high school students. Schools are invited to contact the BPL's Young Adults Room at 617/536-5400, Ext. 334 for additional information.

CITY OF BOSTON

Proceedings of City Council

Wednesday, October 18, 1989.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 1 p.m., President IANNELLA in the chair and all the members present.

OPENING OF MEETING

President IANNELLA requested that all present rise for a moment of silence in memory of the victims of the California earthquake, and the meeting was opened with the salute to the flag.

DISAPPROVING ORDINANCE PLACING NON-BINDING PUBLIC ADVISORY QUESTION RE REORGANIZATION OF BOSTON SCHOOL COMMITTEE ON CITY ELECTION BALLOT

The following was received:

City of Boston
Office of the Mayor

October 5, 1989.

To the City Council.

Dear Councillors:

I return herewith without my signature and disapproved an order passed by your Honorable Body on September 20, 1989, Docket Number 1053, which would have placed a nonbinding public advisory question on the ballot for the next City election. The question pertains to the reorganization of the Boston School Committee and presents three options from which voters could choose.

My reason for disapproval is that the City Council has since passed another order to place a nonbinding public advisory question on the ballot concerning the reorganization of the Boston School Committee, which order I believe is preferable to Docket No. 1053.

Respectfully,

Raymond L. Flynn,
Mayor of Boston.

(Annexed hereto is the order referred to.)

Placed on file.

DISAPPROVING ORDINANCE CREATING FOR LIMITED TIME A SPECIAL COMMISSION ON WATER CONSERVATION

The following was received:

City of Boston
Office of the Mayor

October 10, 1989.

To the City Council.

Dear Councillors:

I return herewith without my signature and disapproved an ordinance passed by your Honorable Body September 20, 1989, Docket Number 1127, which

would create for a limited time a special commission on water conservation.

The reason for my disapproval is that, in addition to the City Charter's prohibiting the Council from taking part in the conduct of the executive or administrative business of the City, the measures set forth in the proposed ordinance are already being undertaken by the Boston Water and Sewer Commission and others. The Boston Water and Sewer Commission, in cooperation with the Commonwealth of Massachusetts, the Massachusetts Water Resources Authority and City agencies, is already undertaking the measures set forth in the ordinance, such as the introduction of new water conservation methods and the development of uniform water conservation standards. Therefore, this ordinance is not needed to accomplish our mutual goal of reduced water use.

Respectfully,

Raymond L. Flynn,
Mayor of Boston.

Assigned for further action.

I respectfully recommend adoption of this order by your Honorable Body.

Very truly yours,

ORDER APPROVING REDUCTION OF \$11,870,000 IN VARIOUS LOAN ORDERS PREVIOUSLY APPROVED FOR VARIOUS PURPOSES

The following was received:

City of Boston
Office of the Mayor
October 16, 1989.

To the City Council.

Dear Councillors:

The Office of Capital Planning has completed a review of the City's authorized, but unissued, debt. During this review we focused on "excess authorization," authorization for which we have no current or future budgets planned.

This excess authorization is expensive for the City since it is considered by the credit rating agencies when they review the City's debt position. Removing this authorization prior to going before the rating agencies this winter would strengthen the City's presentation.

I transmit herewith for your approval a reduction order in the amount of \$11,870,000 for various purposes previously approved under appropriate statutory authorizations.

ORDER APPROVING COMPENSATING BALANCE AGREEMENT BY AND BETWEEN CITY AND BANK OF NEW ENGLAND FOR PROVISION OF BANKING SERVICES

The following was received:
 City of Boston
 Office of the Mayor
 October 2, 1989.

To the City Council.

Dear Councillors:

Under chapter 740 of the Acts of 1985, G.L. c. 44, s. 53F, the City is authorized to enter formal "compensating balance" agreements with banking institutions for the provisions of banking services. Your approval of these agreements is required under that statute.

In order to take advantage of the considerable savings afforded through the use of such agreements, the Treasury Department conducted an extensive competitive bidding process that resulted in the agreement that accompanies this letter.

Under the terms of the agreement, the City will keep a specified minimum balance with the contracting bank as compensation for various specified services rendered.

In order to realize the greatest possible savings to the City, as well as to minimize any possible interruption of banking services to the City, I urge your prompt approval of this agreement.

Sincerely,
 Raymond L. Flynn,
 Mayor of Boston.

Agreement for the Provision of Banking Services

The City of Boston ("the City") and the Bank of New England ("the Bank") hereby enter into the following agreement for the provision of banking services.

AUTHORITY:

This agreement is made under the provisions of General Laws, chapter 44, section 53F, and has been approved by the Mayor and the City Council of Boston.

TERM OF THE AGREEMENT:

This agreement shall be valid for a term of one year starting on July 1, 1989, and terminating on June 30, 1990.

GENERAL PROVISIONS:

Payment for the service to be provided by the Bank will be effected solely through the maintenance of a compensating balance by the City in its accounts with the Bank.

If in any month or at year end, account balances in any account are deficient to the extent that the cost of the banking services is not covered by average collected balances, the City will deposit, in the following month, an amount formulated as provided herein for the calculation of credits to be agreed to by both the City and the Bank to make up the deficit. Conversely, if in any month or at year end, there is a surplus in the account(s), the City will notify the Bank that it is reducing the balances to a more appropriate level in accordance with the formula provided herein for the calculation of credits.

In the event that the City fails to maintain balances sufficient to meet its obligations under this agreement, the Bank's only remedy shall be the right to terminate the provision of services under this agreement.

The Bank shall exercise its right to terminate its service obligations by notifying the Collector-Treasurer of the City in writing sent by certified mail, return receipt requested, of its intent to cancel the contract. The Bank's obligations to provide services under the contract shall terminate at the close of business on the thirtieth day following the day of which notice of cancellation is given. In no event shall the City be liable to pay the Bank any

sums on account for services rendered under this contract or on account of any deficiency in the amounts maintained in the compensating balance account.

Upon termination of services of a bank, the City will maintain in the account(s) an average collected balance to pay for any outstanding services. In addition if there is a surplus in the account(s), the Bank will issue a check to the City for said amount.

The City shall have the right to cancel the contract by giving written notice signed by the Collector-Treasurer and sent by certified mail, return receipt requested, to an officer of the Bank to be designated herein. In the event of cancellation by the City, all obligations by the Bank and the City shall terminate at the close of business on the thirtieth business day after the notification is given to the Bank except as otherwise herein provided for additional services.

Either party may call a meeting, within seven days after a notice of termination given by either party, to attempt to resolve the problem which led to the termination. Any subsequent adjustment, modification, or renegotiation of the contract terms shall require the approval of the City Council and the Mayor in accordance with the provisions of G.L. c. 44, s. 53F.

This agreement is made subject to all laws of the Commonwealth of Massachusetts, special laws applicable to the City of Boston, and ordinances of the City of Boston. The Bank's particular attention is directed to Boston City Code, Ordinance 6, section 155, Divesting Municipal/Public Monies from Banks or Firms Doing Business With or in the Republic of South Africa or Namibia, a copy of which is attached hereto.

The initial account officer responsible for handling relations with the City in connection with this agreement is: (Name & Title). The Bank shall notify the City in writing of any change of account officer.

ORDER APPROVING COMPENSATING BALANCE AGREEMENT BY AND BETWEEN CITY AND BANK OF COMMERCE FOR PROVISION OF BANKING SERVICES

The following was received:

City of Boston
Office of the Mayor

October 2, 1989.

To the City Council.

Dear Councillors:

Under chapter 740 of the Acts of 1985, G.L. c. 44, s. 53F, the City is authorized to enter formal "compensating balance" agreements with banking institutions for the provision of banking services. Your approval of these agreements is required under that statute.

In order to take advantage of the considerable savings afforded through the use of such agreements, the Treasury Department conducted an extensive competitive bidding process that resulted in the agreement that accompanies this letter.

Under the terms of the agreement, the City will keep a specified minimum balance with the contracting bank as compensation for various specified services rendered.

In order to realize the greatest possible savings to the City, as well as to minimize any possible interruption of banking services to the City, I urge your prompt approval of this agreement.

Sincerely,

Raymond L. Flynn,
Mayor of Boston.

Agreement for the Provision of Banking Services

The City of Boston ("the City") and the Boston Bank of Commerce ("the Bank") hereby enter into the following agreement for the provision of banking services.

AUTHORITY:

This agreement is made under the provisions of General Laws, chapter 44, section 53F, and has been approved by the Mayor and the City Council of Boston.

TERM OF THE AGREEMENT:

This agreement shall be valid for a term of one year starting on July 1, 1989, and terminating on June 30, 1990.

GENERAL PROVISIONS:

Payment for the service to be performed by the Bank will be effected solely through the maintenance of a compensating balance by the City in its account with the Bank.

If in any month or at year end, account balances in any account are deficient to the extent that the cost of the banking services is not covered by average collected balances, the City will deposit, in the following month, an amount formulated as provided herein for the calculation of credits to be agreed to by both the City and the Bank to make up the deficit. Conversely, if in any month or at year end, there is a surplus in the account(s), the City will notify the Bank that it is reducing the balances to a more appropriate level in accordance with the formula provided herein for the calculation of credits.

In the event that the City fails to maintain balances sufficient to meet its obligations under this agreement, the Bank's only remedy shall be the right to terminate the provision of services under this agreement.

The Bank shall exercise its right to terminate its service obligations by notifying the Collector-Treasurer of the City in writing sent by certified mail, return receipt requested, of its intent to cancel the contract. The Bank's obligations to provide services under the contract shall terminate at the close of business on the thirtieth day following the day of which notice of cancellation is given. In no event shall the City be liable to pay the Bank any sums on account for services rendered under this contract or on account of any deficiency in the amounts maintained in the compensating balance account.

Upon termination of services of a bank, the City will maintain in the account(s) an average collected balance to pay for any outstanding services. In addition if there is a surplus in the account(s), the Bank will issue a check to the City for said amount.

The City shall have the right to cancel the contract by giving written notice signed by the Collector-Treasurer and sent by certified mail, return receipt requested, to an officer of the Bank to be designated herein. In the event of cancellation by the City, all obligations by the Bank and the City shall terminate at the close of business on the thirtieth business day after the notification is given to the Bank.

Either party may call a meeting, within seven days after a notice of termination given by either party, to attempt to resolve the problem which led to the termination. Any subsequent adjustment, modification, or renegotiation of the contract terms shall require the approval of the City Council and the Mayor in accordance with the provisions of G.L. c. 44, s. 53F.

This agreement is made subject to all laws of the Commonwealth of Massachusetts, special laws applicable to the City of Boston, and ordinances of the City of Boston. The Bank's particular attention is directed to a restriction which regulates where the City may deposit funds. Under Massachusetts General Law chapter 44, section 55, cities and towns in the Commonwealth may make deposits in banks, trust companies or banking companies provided that the amount deposited does not exceed 60% of the capital and surplus unless satisfactory security for the amount in excess of 60% is provided by the depository. In addition, the Bank must comply with Boston City Code, Ordinance 6, Section 155, Divesting Municipal/Public Monies from Banks or Firms Doing Business With or in the Republic of South Africa or Namibia, a copy of which is attached hereto.

AUTHORITY:

This agreement is made under the provisions of General Laws, chapter 44, section 53F, and has been approved by the Mayor and the City Council of Boston.

TERM OF THE AGREEMENT:

This agreement shall be valid for a term of one year starting on July 1, 1989, and terminating on June 30, 1990.

GENERAL PROVISIONS:

Payment for the service to be performed by the Bank will be effected solely through the maintenance of a compensating balance by the City in its account with the Bank.

If in any month or at year end, account balances in any account are deficient to the extent that the cost of the banking services is not covered by average collected balances, the City will deposit, in the following month, an amount formulated as provided herein for the calculation of credits to be agreed to by both the City and the Bank to make up the deficit. Conversely, if in any month or at year end, there is a surplus in the account(s), the City will notify the Bank that it is reducing the balances to a more appropriate level in accordance with the formula provided herein for the calculation of credits.

In the event that the City fails to maintain balances sufficient to meet its obligations under this agreement, the Bank's only remedy shall be the right to terminate the provision of services under this agreement.

The Bank's obligations to provide services under the contract shall terminate at the close of business on the thirtieth day following the day of which notice of cancellation is given. In no event shall the City be liable to pay the Bank any sums on account of services rendered under this contract or on account of any deficiency in the amounts maintained in the compensating balance account.

Upon termination of services of a bank, the City will maintain in the account(s) an average collected balance to pay for any outstanding services. In addition if there is a surplus in the account(s), the bank will issue a check to the City for said amount.

The City shall have the right to cancel the contract by giving written notice signed by the Collector-Treasurer and sent by certified mail, return receipt requested, to an officer of the Bank to be designated herein. In the event of cancellation by the City, all obligations by the Bank and the City shall terminate at the close of business on the thirtieth business day after the notification is given to the Bank.

Either party may call a meeting, within seven days after a notice of termination given by either party, to attempt to resolve the problem which led to the termination. Any subsequent adjustment, modification, or renegotiation of the contract terms shall require the approval of the City Council and the Mayor in accordance with the provisions of G.L. c. 44, s. 53F.

CALCULATION OF CREDITS

All service charges are passed to the analysis system and assessed in regard to that account's collected balance. Credit is given for these balances at the Earnings Credit Rate, which is based on the rate of the last sale of the 91 Day Treasury Bill of the month prior to that being analyzed. The credit is then used to offset charges incurred.

Each account is analyzed separately and on a combined overall banking relationship basis in order to determine the net compensation position.

In the analysis system the "Collected Balance Equivalent per \$1.00 of Service" is calculated in the following manner:

$[ABCD \times .88 \text{ (12\% Reserve Requirement)}] \times$
91 Day T Bill Rate

12

ABCD = The arithmetic average of the daily closing balance in the account. (Average Daily Collected Balance)

GENERAL REPORTING REQUIREMENTS:

The Bank shall furnish the City with monthly account analysis statements showing the balance(s) maintained, the credit earned, the volume and type of services provided, the average daily balance, the interest rate used to calculate earnings credits, the net surplus or deficit of credits earned minus the cost of services, and the accumulated surplus or deficit for the year to date, as well as an abbreviated compensating balance form to be supplied by the City Treasury Department, within 10 days after the month end. The Bank shall also furnish within twenty business days after the expiration or termination of the agreement an analysis of the account activity and credit earnings in the form required by the Commissioner of Revenue under the provisions of General Laws ch. 44, s. 53F.

This agreement and the accounts named herein are also otherwise subject to the rules and regulations for such accounts maintained at State Street Bank in effect from time to time.

ORDER APPROVING COMPENSATING BALANCE AGREEMENT BY AND BETWEEN CITY AND BANK OF BOSTON FOR PROVISION OF BANKING SERVICES

The following was received:

City of Boston
Office of the Mayor

October 2, 1989.

To the City Council.

Dear Councillors:

Under chapter 740 of the Acts of 1985, G. L. c. 44, s. 53F, the City is authorized to enter formal "compensating balance" agreements with banking institutions for the provision of banking services. Your approval of these agreements is required under that statute.

In order to take advantage of the considerable savings afforded through the use of such agreements, the Treasury Department conducted an extensive competitive bidding process that resulted in the agreement that accompanies this letter.

Under the terms of the agreement, the City will keep a specified minimum balance with the contracting bank as compensation for various specified services rendered.

In order to realize the greatest possible savings to the City, as well as to minimize any possible interruption of banking services to the City, I urge your prompt approval of this agreement.

Sincerely,

Raymond L. Flynn,
Mayor of Boston.

Agreement for the Provision of Banking Services

The City of Boston ("the City") and the Bank of Boston ("the Bank") hereby enter into the following agreement for the provision of banking services.

AUTHORITY:

This agreement is made under the provisions of General Laws Chapter 44 section 53F, and has been approved by the Mayor and the City Council of Boston.

TERM OF THE AGREEMENT:

This agreement shall be valid for a term of one year starting on July 1, 1989, and terminating on June 30, 1990.

GENERAL PROVISIONS:

Payment for the service to be performed by the Bank will be effected solely through the maintenance of a compensating balance by the City in its account with the Bank.

If in any month or at year end, account balances in any account are deficient to the extent that the cost of the banking services is not covered by average collected balances, the City will deposit, in the following month, an amount formulated as provided herein for the calculation of credits to be agreed to by both the City and the Bank to make up the deficit. Conversely, if in any month or at year end, there is a surplus in the account(s), the City will notify the Bank that it is reducing the balances to a more appropriate level in accordance with the formula provided herein for the calculation of credits.

In the event that the City fails to maintain balances sufficient to meet its obligations under this agreement, the Bank's only remedy shall be the right to terminate the provision of services under this agreement.

The Bank shall exercise its right to terminate its service obligations by notifying the Collector-Treasurer of the City in writing sent by certified mail, return receipt requested, of its intent to cancel the contract. The Bank's obligations to provide services under the contract shall terminate at the close of business on the thirtieth day following the day of which notice of cancellation is given. In no event shall the City be liable to pay the Bank any sums on account of services rendered under this contract or on account of any deficiency in the amounts maintained in the compensating balance account.

Upon termination of services of a bank, the City will maintain in the account(s) an average collected balance to pay for any outstanding services. In addition if there is a surplus in the account(s), the bank will issue a check to the City for said amount.

The City shall have the right to cancel the contract by giving written notice signed by the Collector-Treasurer and sent by certified mail, return receipt requested, to an officer of the Bank to be designated herein. In the event of cancellation by the City, all obligations by the Bank and the City shall terminate at the close of business on the thirtieth business day after the notification is given to the Bank.

Either party may call a meeting, within seven days after a notice of termination given by either party, to attempt to resolve the problem which led to the termination. Any subsequent adjustment, modification, or renegotiation of the contract terms shall require the approval of the City Council and the Mayor in accordance with the provisions of G.L. c. 44, s. 53F.

This agreement is made subject to all laws of the Commonwealth of Massachusetts, special laws applicable to the City of Boston, and ordinances of the City of Boston. Fee Schedule

Lock box Processing	
Single Bill	.15 per item
Multiple Bills	.18 per item
Software Development	
One time set up charge	750.00
Pick up and delivery	10.00
Charge for returning a receipt to taxpayer	.05 per item
Microfilm*	15.00 per acct per month
Rejections	
over 5 %	.25 per item
over 10 %	.25 per item

Calculation of Credits

Average Collected Balance times earnings credit factor (ECF) divided by 12 equals monthly earnings allowance credits. The earnings credit factor is the average of the previous four weeks' 90 day T-bill yield minus 12 % to adjust for reserve requirements.

* The cost quoted to microfilm checks pertained to the checks written by the City on this account, not the checks deposited. Microfilm of deposited checks will be provided to the City at no charge based on the assumption that each film will be filled, i.e. 30,000 items will appear on each. In the months when checks deposited are low, a frequency of the City's receiving microfilm will have to be established.

GENERAL REPORTING REQUIREMENTS

The Bank shall furnish the City with monthly account analysis statements showing the balance(s) maintained, the credit earned, the volume and type of services provided, the interest rate used to calculate earnings credits, the net surplus or deficit of credits earned minus the cost of services, and the accumulated surplus or deficit for the year to date, as well as an abbreviated compensating balance form to be supplied by the City Treasury Department, within 10 days after the month end. The Bank shall also furnish within twenty business days after the expiration or termination of the agreement an analysis of the account activity and credit earnings by the Commissioner of Revenue under the provisions of General Laws ch. 44, s. 53F.

1. The City will make its best effort to furnish United States Trust Company, in writing, with the schedule and associated volumes of excise tax bills to be issued, one month in advance of the issue date.

2. The City of Boston recognizes that the allocation of the payments as described herein are beyond the scope of normal remittance processing (Lock Box). United States Trust Company will make reasonable efforts to correctly apply payments per allocation schedule as requested by the City. Therefore the City agrees to hold United States Trust Company harmless for any errors due to incorrect allocation.

3. The City recognizes that the manner in which the Bank will stop processing certain excise tax bills is through use of unique coding in the scan line. The City agrees to begin the use of this coding with the next generation of excise tax bills, on or about July 26, 1988, and thereafter. Since the Bank will be processing previously issued tax bills, generated without this unique coding, the City agrees to hold United States Trust Company harmless of any payments after the stop date for these bills.

GENERAL PROVISIONS:

Payment for the service to be performed by the Bank will be effected solely through the maintenance of a compensating balance by the City in its accounts with the Bank.

If in any month or at year end, account balances in any account are deficient to the extent that the cost of the banking services is not covered by average collected balances, the City will deposit, in the following month, an amount formulated as provided herein for the calculation of credits to be agreed to by both the City and the Bank to make up the deficit. Conversely, if in any month or at year end, there is a surplus in the account(s), the City will notify the Bank that it is reducing the balances to a more appropriate level in accordance with the formula provided herein for the calculation of credits.

In the event that the City fails to maintain balances sufficient to meet its obligations under this agreement, the Bank's only remedy shall be the right to terminate the provision of services under this agreement.

The Bank shall exercise its right to terminate its service obligations by notifying the Collector-Treasurer of the City in writing sent by certified mail, return receipt requested, of its intent to cancel the contract. The Bank's obligations to provide services under the contract shall terminate at the close of business on the thirtieth day following the day of which notice of cancellation is given. In no event shall the City be liable to pay the Bank any sums on account of services rendered under this contract or on account of any deficiency in the amounts maintained in the compensating balance account.

Upon termination of services of a bank, the City will maintain in the account(s) an average collected balance to pay for any outstanding services. In addition if there is a surplus in the account(s), the bank will issue a check to the City for said amount.

The City shall have the right to cancel the contract by giving written notice signed by the Collector-Treasurer and sent by certified mail, return receipt requested, to an officer of the Bank to be designated herein. In the event of cancellation by the City, all obligations by the Bank and the City shall terminate at the close of business on the thirtieth business day the notification is given to the Bank.

Either party may call a meeting, within seven days after a notice of termination given by either party, to attempt to resolve the problem which led to the termination. Any subsequent adjustment, modification, or renegotiation of the contract terms shall require the approval of the City Council and the Mayor.

ORDER REQUIRING CITY TO PURCHASE
RECYCLED PAPER PRODUCTS

Coun. McLAUGHLIN offered the following:
City of Boston

In the Year Nineteen Hundred and Eighty-nine.

An Ordinance Requiring the City to Purchase Recycled Paper Products.

Be it ordained by the City Council of Boston, in accordance with the provisions of Massachusetts General

Laws chapter 43B, section 13, and any other applicable law, as follows:

Whereas, It is in the interest of the City of Boston to encourage recycling and the reduction of waste; and

Whereas, The use of recycled of materials protects the environment, reduces the amount of trash, and encourages markets for recycled products; therefore be it ordered that the C.B.C. is hereby amended by inserting after section 5-1.8, the following new section to be enacted by the City Clerk:

Section 1. Definitions. "Recycled paper products" shall mean any paper product consisting of not less than fifty percent of secondary waste material by weight.

Section 2. Whenever the purchasing agent shall invite proposals to supply the city with paper products, the purchasing agent shall request that any such proposals specify the use of recycled paper products when appropriate. The purchasing agent shall also ensure that ten percent of the paper products purchased during a fiscal year are recycled paper products. The ten percent figure shall be derived from the total cost of all paper products purchased by the city during a fiscal year.

In awarding contracts to supply the city with paper products, the purchasing agent shall award the contract to the lowest bidder who would supply recycled paper products, provided that such bid is no more than ten percent higher than the lowest bidder whose paper products are not recycled.

The purchasing agent shall whenever possible coordinate contracts with the Commonwealth of Massachusetts "blanket contract program" for the procurement of recycled paper products for the City.

SUPPORTING PASSAGE OF S-52, "ACT RELATIVE TO SAFETY TESTING OF COSMETIC PRODUCTS"

Coun. SALERNO offered the following:

Whereas, The "Act Relative To The Safety Testing of Cosmetic Products" (S-52), would prohibit the use of two types of cosmetic safety procedures, the Draize eye irritation test and the Lethal Dose test, which are notorious for their cruelty to animals and their unreliability as scientific proof of cosmetic safety; and

Whereas, The Food and Drug Administration does not require the Lethal Dose test or the Draize test for cosmetic testing; and

Whereas, Courts have proven that cosmetic animal testing is irrelevant and unnecessary because the results are unreliable and do no significantly apply to humans due to structural differences between animals and humans; and

Whereas, Toxicologists have concluded that the continued use of unreliable testing procedures on animals does not insure that products are safe for human use; and

Whereas, The rabbits used in Draize eye irritancy tests are not treated after the conclusion of these tests therefore the caustic substances are allowed to remain in their eyes; and

Whereas, The Lethal Dose test is inhumane and subjects animals to extreme suffering and cruelty by repeatedly administering doses of chemicals to groups until they find the dose that causes 50 percent of the animals to die within two weeks; and

Whereas, Modern alternative tests exist such as cell and tissue culture tests and in vitro ocular irritancy tests which are more efficient, more accurate, more relevancy to humans and involve less cruel research; and

Whereas, The country's largest selling perfume, Elizabeth Taylor's Passion, is an example of a successful cosmetic product that was developed and marketed without the use of animal testing; and

Whereas, Scientists, physicians and manufacturers have presented extensive testimony in favor of this legislation; and

Whereas, The passage of this bill would serve the dual purpose of encouraging better cosmetic safety testing therefore better consumer protection from unsafe products, and it would preserve the rights of life and humanity for animals; therefore be it

Resolved, That the Boston City Council, in meeting assembled, does hereby support the passage by the Massachusetts Senate of the "Act Relative To The Safety Testing of Cosmetic Products"; and be it further,

Resolved, That the Boston City Council, in meeting assembled, does hereby request that the City Clerk forward a copy of this Resolution to the members of the Boston Delegation of the Massachusetts Legislature.

Passed under suspension of the rules.

The Boston Industrial Development Financing Authority (BIDFA), Board of Directors, acting pursuant to the provisions of chapter 40D of the Massachusetts General Laws, adopted a favorable resolution with respect to this industrial development project.

The development plans of Saint Joseph's Manor include the following: purchase of the land and building located at 321 Centre Street, Dorchester, Massachusetts; renovation of such building to provide a nursing home with approximately 77 Level II beds and approximately 41 Level III beds; and purchase of equipment for use by the nursing home in its provision of nursing home services.

I urge your Honorable Body to pass this order as expeditiously as possible so that this employer may implement its business plans as described.

Respectively,

Raymond L. Flynn,
Mayor of Boston.

Whereas, St. Joseph Nursing Care Center, Inc. (the "Company," which word includes in this resolution any parent, subsidiary or other affiliate of St. Joseph Nursing Care Center, Inc.) has proposed the financing by revenue bonds ("Bonds") to be issued by the City of Boston, Massachusetts (the "City") acting by and through its Industrial Development Financing Authority (the "Authority"), of up to \$7,130,000 of the cost of certain industrial development facilities (as such term is defined in Massachusetts General Laws, chapter 40D (the "Act")) in the City to be owned and used by the Company, such facilities consisting generally of the following (the "Project"):

purchase of the land and building located at 321 Centre Street, Dorchester, Massachusetts; renovation of such building to provide a nursing home with approximately 77 Level II beds and approximately 41 Level III beds; and purchase of equipment for use by the nursing home in its provision of nursing home services;

Whereas, The Company has expressed its willingness to make payments sufficient to (i) pay the principal of and interest on the Bonds, (ii) pay the fees of the Authority in connection with the Bonds and the reasonable expenses of the City and the Authority incurred in connection with the Bonds, and (iii) reimburse the City and the Authority for or indemnify the City and the Authority against any reasonable expenses incurred in connection with the

Bonds in the event that the issuance and sale of the Bonds are not accomplished as contemplated; and

Whereas, Upon completion of the Project as contemplated, the Company will provide permanent full or part time employment for approximately one hundred fifty (150) persons (amounting to approximately one hundred (100) full time equivalents) at the Project within the next two years and thereby contribute to the alleviation of unemployment in the City, provide security against future unemployment in the City and benefit the economy of the City and The Commonwealth of Massachusetts; and

Whereas, The Company has undertaken to cooperate with public and community agencies engaged in manpower recruitment and training to pursue as a goal, to the extent consistent with state and federal law, the furnishing of at least 50 percent of new jobs and new hires at the Project to residents of the City, at least 25 percent of new jobs or new hires to minorities and at least 25 percent of new jobs or new hires to women; and

Whereas, The Company hereby pledges to cooperate with public and community agencies engaged in fostering minority and women owned business enterprises and hereby also pledges to pursue as a goal the placement of contracts for goods and services with enterprises based in the City; and

Whereas, The estimated cost of the Project is \$7,930,518, and the Company has indicated its willingness to finance any costs of the Project in excess of \$7,130,000 other than by the issuance of the Bonds, and it appears that the cost of the Project or such portion thereof as is not financed through other sources may be financed through the issuance of the Bonds; and

Whereas, The Authority has adopted resolutions approving the Project and the estimated cost thereof and authorizing the issuance of Bonds in a principal amount not to exceed \$7,130,000 to finance the portion of the cost of the Project not financed by other sources, the issuance of such Bonds being subject to the making of a loan agreement and other agreements with the Company pursuant to the Act and to certain other conditions; and

Whereas, The City, by adopting this order or by taking other action in connection with the Project or the Bonds, the City or the Authority does not and cannot provide any assurance that the Project or the Company is financially viable or sound, that amounts owing on the Bonds will be paid, that any collateral which may be pledged to secure the Bonds would be sufficient to repay the holders of the Bonds in the event of default and foreclosure, or that interest on the Bonds is or will continue to be excludable from gross income for federal income tax purposes or exempt from Massachusetts income taxation; and neither the Company nor any prospective purchaser of the Bonds nor any other person shall rely upon the City or the Authority with respect to such matters; and

Whereas, The Authority has advised the City that notice of the Bonds in a principal amount of approximately \$7,250,000 to finance the Project was published in *The Boston Globe* on April 3, 1989, and that such public hearing was held on April 19, 1989, all as described in such notice;

Ordered, That the Project, its estimated cost and the financing of the Project through the issuance of the Bonds pursuant to the Act, in a principal amount not to exceed \$7,130,000, be, and the same hereby are approved; provided, however, that the Bonds shall not constitute a general obligation or a pledge of the faith and credit of the City; and be it further

Ordered, That it is intended that this Order shall constitute the approval required by section 147(f) of the Internal Revenue Code of 1986, as amended, and it is also the intent of this Council that the approval granted by this Order shall serve as an inducement for the Company to undertake the Project.

Referred to the Committee on Planning and Development.

MAYOR'S YOUTH LEADERSHIP CORPS

Mayor Raymond L. Flynn announced today the creation of the Mayor's Youth Leadership Corps, fulfilling a vital commitment to Boston's young people under the Safe Neighborhoods Plan. The program for Boston youth will be housed in the former Curley family home at 350 The Jamaicaway, now owned by the city's George Robert White Fund.

"The Curley home is a symbol of the hopes and dreams of a generation past," said Mayor Flynn. "Now it will provide a unique and exciting opportunity for Boston's future leaders to understand and learn from the past as they prepare for the future."

"We are extending a challenge to our young people to come together in the home of our former mayor and governor, James Michael Curley, and learn about our city's rich cultural and ethnic history. The experience will help them to understand for the future the rich diversity of people that are truly the strength of Boston."

"I want to thank Jack Curry, president of Northeastern University and Rudy Pierce, president of the Boston Bar Association — and the people and institutions they lead — for recognizing their own responsibility to give something back," said Flynn.

John Curry, President of Northeastern University, has offered the university's assistance in developing the educational curricula, counseling, and providing recreational opportunities.

"We recognize that no failure in our society is more disabling than our failure to nurture the hope and curiosity in our young people that can, over time, grow into leadership," said Mr. Curry. "We're supporting the Youth Leadership Development Center because we know that neither the City of Boston or our democracy can continue to flourish unless the youth of today are prepared to be the citizens and leaders of tomorrow."

Rudolph F. Pierce, president of the Boston Bar Association, announced that bar members are volunteering to staff programs, serve as role models, and assist in leadership development.

Mayor's Youth Leadership Corps . . .

(Continued from front page)

As lawyers, we have a vested interest in the health of this city," said Mr. Pierce. "Working to create the Youth Leadership Development Center is a small, but important step in providing Boston's youth with opportunities for a better tomorrow. The Boston Bar Association stand ready, willing, and able to provide a cadre of volunteers who are committed to making this project a success."

The Development Center and Youth Leadership Corps will be directed as a city program with additional funding and support from the businesses and private individuals. The Curley House will become home to the Youth Leadership Development Center, a new city program for Boston students in their junior year of high school providing a wide array of experiences and opportunities designed to encourage the next generation of Boston's leaders. The young participants will enjoy a curricula that include the history of Boston, its neighborhoods, and the contributions of its many immigrant and ethnic groups. They will learn from people in business, government, academia and the arts who will share not only their knowledge, but also what it took to achieve success and leadership in their careers.

The one-year program for juniors will include activities, field trips, and experiences after school, on weekends and during school vacations. They will study the challenges and problems facing Boston and its neighborhoods — especially its young people. They will also be expected to become part of the solutions as well.

Upon completion of the academic year program, graduating members will orient the next year's candidates and enroll in summer internship positions matching their interests and career aspirations. The young participants will learn the importance of individual responsibility, discipline, self respect and respect for others, and most importantly, the value of hard work. Their leadership qualities

will be explored, encouraged and enforced.

Corps members will receive a modest stipend during their school year participation and a scholarship following completion of the program. They will be able to access tutoring and both academic and job counseling. A mentoring program involving college students and career professionals will also be established.

Everyone always says that young people are the "leaders of tomorrow." But how do they reach that destination without the right direction and support today.

The City of Boston and Mayor Raymond L. Flynn — in partnership with Northeastern University and the Boston Bar Association — have established a program to provide that direction and support.

The goal of the Mayor's Youth Leadership Corps is to provide the opportunities and experiences that will promote and encourage the next generation of Boston's leaders.

The Mayor's Youth Leadership Corps will be a group of hard working young people from all of Boston's neighborhoods.

Chosen after their sophomore year of high school, corps members will

be given a year they will never forget — and a year they can build on for the rest of their lives.

The program's field experiences, curriculum and activities will begin during students' junior year — after school hours, on weekends and during vacation periods.

At the end of the school year, members will be placed in internships in some of the most interesting and productive summer jobs available in the City.

Field Experiences Young people will meet the people who are the leaders of today. They will learn from academic, government officials, business people and people in the arts, who will talk about not just about who they are and what they do today, but how they got there and what it takes to lead and succeed.

Trips will range from visits to Washington, D.C. and meetings with members of Congress to spending time with Chief Executive Officers in Boston office towers. There will also be opportunities to attend cultural and sports events and to meet performing artists and athletes.

Curriculum Young people selected for this program will learn about the history of Boston and all of its neighborhoods and the contributions of various immigrant and ethnic groups. They will study the challenges and problems facing Boston, its neighborhoods and its people — especially its young people — today.

Activities Members of the corps will be expected to work hard, but they will also be given the chance to have fun. A range of activities will be provided, both to give young people a chance to develop leadership and communication skills, and a change to enjoy themselves through activities like whitewater rafting and camping expeditions.

Internships After spending the academic year in the program, corps members will orient the next year's group, then be placed in summer internship positions related to their interests and career aspirations.

An emphasis will also be placed on bringing these young people together as a group, and on encouraging members to form friendships with one another and succeeding groups — creating a leadership network for the City of Boston in the future.

Support Young people chosen for the Mayor's Youth Leadership Corps will be given all the encouragement and assistance necessary to take part in this program.

In addition to receiving a salary from their summer internships, corps members will receive a small stipend during the school year and a lump sum scholarship upon completion of the program.

Members will be provided with tutoring, and academic and career counseling to help them make decisions for the future. A mentoring program involving both college students and adults will be established.

Site Headquarters of the Mayor's Youth Leadership Corps will be the James Michael Curley House in Jamaica Plain. Discussions will take place around the fireplace of the large living room, and small dinners in the mahogany paneled dining room of the Georgian Revival mansion that was the residence of the former Mayor of Boston and Governor of Massachusetts.

But the real "home" for the Mayor's Youth Leadership Corps will be the entire City of Boston and all that it offers. The real hosts will be

Mayor Flynn, the people of Boston, Northeastern University, the Boston Bar Association and all of the other people and institutions who will take part in the program because they care about Boston's young people and Boston's future.

Selection Corps members will be nominated by principals, teachers, community, business and religious leaders, parents and peers for the leadership qualities they have already begun to show. Selection will be based on conduct, character and contributions to community, as much as achievements in academics or other areas.

If you know young people who should be considered for this program, please recommend them and urge them to apply.

For more information on applying or nominating young people, contact the principal's office of any Boston high school — public, parochial or private — or write to the Mayor's Youth Leadership Corps, 350 The Jamaica Way, Jamaica Plain, MA 02130.

As our future depends on our leaders tomorrow, those leaders depend on our support today.

ACCIDENT PREVENTION TIPS FOR THE OLDER PERSON

Visiting Nurse Association of Boston and its Affiliates

Though people of all ages have accidents, they occur most frequently, and are more serious with persons over 65 — and the majority of accidents happen in the home. As the normal aging process progresses, most everyone can experience physical, mental and emotional changes. Some examples include:

- impaired hearing and eyesight
- slower reaction time
- diminished balance and coordination
- less strength

As a caregiver for an elderly person, you may be concerned with medications, and physical limitations. Attention should be given to making a safer environment for the elderly patient. Injuries once considered minor, may now lead to serious complications to an older person for several reasons:

- their bones are more brittle
- they have lower resistance to disease
- slower healing process

If you have an elderly person living with you or have a relative who lives alone, take time to review some simple household safety precautions that may mean the difference between continued mobility and an injury limiting movement:

- always use nonskid or backing on area rugs, especially in the bathrooms
- tack down carpet corners
- be sure stairs are firmly anchored down; have non-skid treads; are adequately lighted; and always have a strong handrail within reach
- painting the top and bottom steps will help make them more visible
- grab bars should be installed in tub and toilet areas
- hot water temperature should be set at no higher than 120 degrees to prevent burns
- be sure there is a clear walking area in every room; remove all electrical cords in the way

- do not use doorways, halls or stairs for storage
- when carrying objects, make sure the view is not blocked; lift with your legs and get help when necessary
- never walk on floors that have been freshly waxed or washed until completely dry
- wipe up spills immediately
- avoid wearing slippers, socks or smooth-soled shoes on uncarpeted floors
- always have a light within reach of the bed
- put nightlights in halls, bedrooms and bathrooms

Other general safety tips recommended for the elderly include:

- if they live alone, assure that someone is in daily contact with them, either a neighbor, friend or relative
- have them keep a flashlight and portable radio handy, (including extra batteries)
- always get up slowly from a chair or bed to avoid dizziness
- use one good lock on all doors — if there is an emergency and a quick exit is necessary, it is easier to open a single lock
- do not hurry; many accidents happen because people try to do things too quickly
- stay physically fit, eat properly and get plenty of rest
- ensure fire detectors are installed and in working order

Obviously there are many other precautions that can be taken inside the home, either by a caregiver or an elderly person. Needless injuries can be prevented if time is taken to look through a home and correct accidents just waiting to happen.

The Visting Nurse Association of Boston is the oldest and second largest provider of home health care in the nation. Nearly 600 professional nurses and home health aides make over 500,000 home care visits annually. For additional information, please call (617) 426-6630.

FUNDERS COMBINE IN NEW APPROACH TO CHILD DAY CARE CRISIS

BOSTON — In 1950, just 32 percent of the women in Massachusetts were in the workforce; but today, more than 60 percent of Massachusetts women work and that percentage is rising every year. And the vital service industry that has developed to care for the estimated 550,000 children in need of non-parental day care in Massachusetts is struggling to meet the demand.

In a major step toward easing the growing crisis in affordable child care, a new collaboration of major local businesses and philanthropies today announced it has raised over \$4 million to date to fund a unique program aimed at upgrading and expanding the quality and availability of child care in the Massachusetts Bay area.

The Child Care Initiative Funding Collaborative, under the leadership of United Way of Massachusetts Bay, plans to raise \$6 million for the initiative which seeks to improve and expand the capacity of non-profit child care providers in the Massachusetts Bay area.

To date, the key funders backing the new Initiative and the amounts committed include the Boston Foundation, \$225,000; The Hyams Foundation, \$150,000; Shawmut Bank, N. A., \$75,000; The Riley Foundation, \$100,000; Bank of Boston, \$45,000; Boston Globe Foundation, \$90,000, and New England Telephone Company, \$75,000. With United Way of Massachusetts Bay's five-year commitment of \$3,500,000, the Initiative's total funding now stands at \$4-million-260-thousand. Efforts to bring additional major backers on board are currently under way, according to Pat Brandes, Director of the Child Care Initiative for United Way of Massachusetts Bay.

The Initiative consists of two key programs: a Capital investment Fund designed to support new and improved physical facilities for child care; and a Careers Project aimed at

elevating the status and improving the retention rate of child care workers by providing training, support and career advancement opportunities.

Non-profit child care agencies traditionally have trouble borrowing significant capital from banks to improve and expand their physical facilities and equipment. This is because many non-profit agencies lack the credit history and the fiscal management capacity necessary to qualify for conventional loans. The Capital Investment Fund will act as a broker between child care agencies and sources of capital, and as a funder providing direct grants and loans. It will also furnish technical assistance.

Lack of professional development programs, skills building opportunities and other avenues to career advancement — along with low salaries — contribute directly to the tremendously high staff turnover rate in the child day care industry which runs as high as 47 percent annually. A Careers Project plan, aimed at providing more career development opportunities for child care workers, will be announced shortly.

United Way chose child care as the focus of a major community problem-solving effort after an extensive survey of provider agencies, advocacy groups, public and private foundations, corporations and members of the academic community. The survey indicated that the current and projected need for additional quality child care is clear and compelling with demand expected to increase 23 percent by 1995.

"The growing number of female-headed households and the increase in women and children living at the poverty level have made the need for affordable child care even more pressing," according to Micho F. Spring, Chairman of the Board of United Way of Massachusetts Bay. "We're grateful that some of Boston's largest businesses and foundations are joining with us in backing this important initiative."

The Child Care Initiative has rawn praise from a wide range of hild care professionals.

"In our 18 years of leadership within the child care community, we have repeatedly seen the need for uch a broad-based initiative to address the systemic problems in child care staffing", says Sally Quinn, Acting Executive Director of the Child Care Resource Center, Inc., of Cambridge and Boston. "We applaud the United Way of Massachusetts ay for launching this major step to improve the child care system's ability to provide ongoing career development and advancement opportunities."

Start up dates for both elements of the Child Care Initiative are in September of this year. If successful, the Child Care Initiative is expected to serve as a model to be replicated statewide and nationally.

BOARD OF MERIT

The Board of Merit, consisting of the Fire
Commissioner and the Deputy Fire Chiefs, has
considered all meritorious acts referred to it dur-
ing the year 1989. After careful consideration
and study, the Board submitted the following rec-
ommendations which are hereby approved by the
Fire Commissioner:

1. Case of Fire Fighter Robert M. Staunton,
Engine Company 21

At approximately 1944 hours, on January 6,
1989, box 3121 was transmitted for a building
fire at 213 Geneva Avenue. While advancing a
line to the third floor, Engine Company 21 was
informed that children were trapped in an apart-
ment on that floor. At this time heavy fire and
smoke conditions existed and Fire Fighter Robert
M. Staunton crawled down the hall of the burning

apartment. The bedroom on his left was fully in-
volved in fire and flames were lapping out into
the hallway above Fire Fighter Staunton's head.
He quickly entered the bedroom on his right,
found a child on the bed and removed her to the
safety of the outer hallway where Lieutenant
Timothy F. McGillicuddy immediately started
C.P.R. At this time Fire Fighter Staunton heard
cries from the rear bedroom and, under intense
heat and smoke conditions, he reentered the bed-
room. By this time fire was flashing across the
ceiling of that bedroom placing Fire Fighter
Staunton under extreme personal risk and mak-
ing the search extremely difficult. He found a
child trapped behind the bed and wedged between
the headboard and baseboard. He quickly re-
moved him to the safety of the outer hallway, just
as the room flashed over. Fire Fighter John A.
King, Engine Company 21, started C.P.R. and
removed the child to a waiting ambulance.

Because Fire Fighter Staunton performed these
acts under extreme personal risk to himself and
before proper ventilation had been performed, or
lines were in place, the Fire Commissioner
highly commended him in General Order No. 20
of 1989.

The Board recommended that Fire Fighter Ro-
bert M. Staunton, Engine Company 21, be
awarded the John E. Fitzgerald Medal for the
most meritorious act.

2. Case of Fire Lieutenant Timothy F. McGilli-
cuddy, Jr., Ladder Company 7

At 1944 hours on January 6, 1989, box 3121
was struck for a building fire at 231 Geneva Av-
enue. Upon arrival, with heavy fire and smoke
conditions issuing from the third floor, Lieuten-
ant Timothy F. McGillicuddy, Jr., of Ladder
Company 7, was informed that children were
trapped in that apartment. Lieutenant McGilli-
cuddy ordered his company to place a 35-foot
ladder to the third floor for ventilation and res-
cue. He then ascended the stairs and crawled
down the hall to the burning apartment. Lieuten-
ant McGillicuddy started a search, before proper
ventilation had been accomplished. A member of
Engine Company 21 located one child and passed
her to Lieutenant McGillicuddy who immedi-
ately removed her from the burning apartment.
At this time the child was not breathing. Lieuten-
ant McGillicuddy immediately started mouth to
mouth resuscitation, successfully reviving the
child and placed her under the care of Boston City
Hospital personnel.

Because Fire Lieutenant Timothy F. McGilli-
cuddy, Jr., performed these acts under unusual
personal risk to himself before proper ventilation
had begun, and without proper protection against
possible infectious disease, the Fire Commis-
sioner highly commended him in General Order
No. 40 of 1989.

The Board recommended that the name of Fire
Lieutenant Timothy F. McGillicuddy, Jr., Lad-
der Company 7, be placed on the Board of Merit.

3. Case of Fire Fighter (Inspector) Phillip E.
Marsh, Fire Prevention Division

On March 16, 1989, at approximately 2113
hours, Fire Fighter (Inspector) Phillip E. Marsh,
Fire Prevention Division, while off duty and
stopped at a traffic light in Codman Square, saw
two teenagers light newspapers and attempt to set
fire to a three story, ordinary construction vacant
building at 600 Washington Street, District 8.

Inspector Marsh notified Fire Alarm by radio
and requested a still alarm. When he approached
the two suspects, both fled behind the building.

Inspector Marsh pursued the suspects through back yards and over fences until the suspects split up. He continued after the taller suspect for several blocks where he apprehended him as he entered a three-family dwelling at approximately 742 Washington Street. A crowd gathered and pressured Inspector Marsh to release the suspect. Inspector Marsh continued to update Fire Alarm of his location as it changed during the pursuit. Fire Alarm notified Inspectors John J. O'Sullivan and Edward S. Twitty of the Fire Investigation Unit, who responded to the incident. On arrival they arrested the suspect and removed him from the scene, which had grown tense because of Inspector Marsh's refusal to release the suspect.

As Inspector Marsh was returning to his car in Codman Square, some youths informed him the second suspect could be found at 656 Washington Street. Inspector Marsh confronted the suspect and apprehended him. Inspector Twitty arrested him and both suspects were transported by Boston Police to Area C and charged with arson.

Because this act was performed with great personal risk, without knowledge of whether the suspects were armed or not, or if the crowd could turn from threats to action, and because of his quick aggressive action, without regard for his own personal safety, thus preventing a serious fire in a very hazardous vacant building, the Fire Commissioner highly commended him in General Order No. 26 of 1989.

The Board recommended that the name of Fire Fighter (Inspector) Phillip E. Marsh, Fire Prevention Division, be placed on the Board of Merit.

4. Cases of Fire Fighter Gerard A. Yanovitch, Engine Company 3, Fire Fighter John F. Kelly, Special Unit

On May 23, 1989, at approximately noon, Fire Fighters Gerard A. Yanovitch of Engine Company 3 and John F. Kelly of the Special Unit, while off duty and exiting a supermarket parking lot at Adams and Minot Streets, District 8, observed a young man attempting to seize control of a vehicle from a female occupant.

Fire Fighters Yanovitch and Kelly left their vehicle to assist the woman. An elderly gentleman, while trying to assist the woman, was confronted by the younger man who proceeded to throw him several times against a dumpster and was in the process of throwing him to the ground when Fire Fighters Yanovitch and Kelly seized the younger man's arms, resulting in a bag being torn loose from his left hand, revealing a loaded pistol.

Fire Fighter Kelly struck the young man, the momentum took them to the ground. Fire Fighter Yanovitch pried the pistol from his hand. Fire Fighter Yanovitch, Kelly and the older man, a retired police officer, subdued the man until the arrival of the police.

It was later revealed this man had apparently robbed a local bank in Adams Square and was attempting to use the woman's vehicle to escape.

Because of their quick, aggressive action and without regard for their own personal safety in a life threatening situation, reflecting great credit upon themselves and the Boston Fire Department, the Fire Commissioner highly commended Fire Fighter Gerard A. Yanovitch of Engine Company 3 and Fire Fighter John F. Kelly of the Special Unit in General Order No. 51 of 1989.

The Board recommended that the names of Fire Fighter Gerard A. Yanovitch, Engine Company 3 and Fire Fighter John F. Kelly, Special Unit, be placed on the Board of Merit.

5. Cases of Fire Fighter John J. Sullivan, Ladder Company 7, Fire Fighter John L. McKay, Jr., Ladder Company 7

On August 13, 1989, at 2110 hours, Ladder Company 7 responded to a building fire at 46 Lyons Street, District 7. Upon arrival, fire was showing from the rear of a three story duplex on the second and third floors. Citizens informed Fire Fighters John J. Sullivan and John L. McKay, Jr., of Ladder Company 7, that a woman and her child were still in the second floor and a man, who had entered the building to search for them, had not returned.

Both fire fighters entered the building by the front door and made their way to the second floor via the front stairs. Upon reaching the second floor, Fire Fighter John J. Sullivan entered the left side apartment and conducted a room to room search through heavy smoke and increasingly intense heat. He located a woman at the rear of the apartment who, in an extremely confused and nearly unconscious state, was holding an infant wrapped in a blanket. Fire Fighter Sullivan immediately removed them to safety, through the front of the building, to the street.

Simultaneously, Fire Fighter John L. McKay, Jr., entered the right side apartment of the second floor and conducted a room to room search through heavy smoke and intense heat. He located a man at the rear of the apartment, who was at floor level attempting to open the door to the rear stairway which was fully involved in fire. Fire Fighter McKay forcibly restrained the man from opening the door and removed him to the street through the front of the building.

Both of these rescues were performed before ventilation had occurred or lines were in place. Adding to the difficulty and confusion was the fact that the occupants were unable to speak English, making communication extremely difficult.

Because these rescues were performed at great personal risk, reflecting great credit upon themselves and the Boston Fire Department, the Fire Commissioner highly commended Fire Fighter John J. Sullivan and Fire Fighter John L. McKay, Jr., Ladder Company 7 in General Order No. 54 of 1989.

The Board recommended that the names of Fire Fighter John J. Sullivan and Fire Fighter John L. McKay, Jr., Ladder Company 7, be placed on the Roll of Merit.

6. Case of Fire Fighter Ralph P. Walker, Ladder Company 29

On November 1, 1989, Box 12-3434 was struck for a building fire at 784 Washington Street, District 8, an elderly housing high rise complex.

Smoke was issuing from the second floor rear. Ladder Company 29 was ordered to make a primary search of that area. Fire Fighter Ralph P. Walker of Ladder Company 29 proceeded to the rear of the building, climbed over an eight-foot locked gate and ascended to the second floor via the rear stairway. Upon entry into the common hallway he encountered a heavy smoke condition.

Another fire fighter was removing an elderly female via the rear stairway. Fire Fighter Walker began to search for other occupants. He opened the door to an apartment and while encountering heavy smoke and heat he located an elderly male in a wheelchair and removed the man into the hallway. He proceeded in checking for vital signs, removed his facepiece and placed it on the victim's face. With the aid of other fire fighters,

the man was removed to the street where CPR was performed until relieved by Boston Health and Hospital personnel.

The Fire Commissioner highly commended Fire Fighter Ralph P. Walker, Ladder Company 29 for his actions which were performed at unusual personal risk, under difficult heat and smoke conditions, before ventilation was begun or lines placed, in General Order No. 65 of 1989.

The Board recommended that the name of Fire Fighter Ralph P. Walker, Ladder Company 29, be placed on the Roll of Merit.

7. Case of Fire Fighter Donald E. Oliver, Ladder Company 2

On November 24, 1989, Engine Company 9, Ladder Company 2 and Rescue Company 1 responded to a still alarm for Maverick MBTA Station, District 1, at 1644 hours, incident number 41562, on report of a person struck by a train.

Investigation revealed a 50 year old male wedged between the platform and the train some ten feet from the front car and the first door; the upper half of his body above the platform and the lower half below. The consensus of opinion by the members present was that the man was alive but unconscious.

Members of Ladder Company 2, while operating the Amkus tool between the car and platform, released the pressure holding the person. Fire Fighter Donald E. Oliver of Ladder Company 2 descended into the pit. Crawling in the space under the platform adjacent to the subway car he managed to reach the victim, maneuvering the man's legs and torso allowing extrication by members on the platform.

Due to the extreme apparent injuries to the victim, the rescue was made before the third rail power was shut down. Fire Fighter Oliver, cognizant of the safety risks involved, performed this act at great personal risk to himself. The Fire Commissioner highly commended Fire Fighter Donald E. Oliver, Ladder Company 2, in General Order No. 73 of 1989.

The Board recommended that the name of Fire Fighter Donald E. Oliver, Ladder Company 2, be placed on the Roll of Merit.

8. Cases of Fire Lieutenant Robert J. Crawford, Ladder Company 15, Fire Fighter John J. Forristall, Engine Company 33, Fire Fighter Martin J. Fernandes, Engine Company 33

On August 21, 1989, at 1530 hours, members of Engine Company 33 and Ladder Company 15, while on the main floor of quarters, heard shouts for help coming from the Boylston Street area in the vicinity of the Hynes Convention Center. Upon investigation, they observed a man being chased by an employee of a nearby retail store. Fire Lieutenant Robert J. Crawford, Ladder Company 15, Fire Fighters John J. Forristall and Martin J. Fernandes, both of Engine Company 33, immediately gave chase on foot and after a struggle which knocked one member to the ground, the suspect was apprehended. The suspect was brought to Engine Company 33's quarters and detained until the arrival of the Boston Police who subsequently arrested the man. The stolen property was then returned to the merchant.

The Fire Commissioner commended Fire Lieutenant Robert J. Crawford, Ladder Company 15 and Fire Fighters John J. Forristall and Martin J. Fernandes, Engine Company 33, for their aggressive action, reflecting credit upon themselves and the Boston Fire Department, in

General Order No. 62 of 1989.

The Board recommended that Fire Lieutenant Robert J. Crawford, Ladder Company 15, Fire Fighter John J. Forristall, Engine Company 33, Fire Fighter Martin J. Fernandes, Engine Company 33, be awarded the Distinguished Service Award.

O. Case of Fire Fighter James W. Rodgers, Ladder Company 26

On September 30, 1989, at approximately 700 hours, Fire Fighter James W. Rodgers of Ladder Company 26, while off duty and driving along American Legion Highway, observed a vehicle swerve into a tree at a fair rate of speed. Fire Fighter Rodgers immediately stopped his vehicle to render assistance. Investigation revealed an elderly male and female occupant in need of immediate medical attention. Fearing a vehicle fire, he proceeded in removing an unconscious male and while administering CPR instructed and encouraged a spectator tending the elderly female occupant who was bleeding profusely and trapped under the dash. Another spectator was instructed to summon assistance. Fire Fighter Rodgers succeeded in restoring the man's vital signs.

Engine 52, Ladder 29, Rescue 2 and Emergency Medical Services arrived and extricated the elderly woman.

The Fire Commissioner commended Fire Fighter James W. Rodgers, Ladder Company 26, for his quick actions and dedication to duty, reflecting great credit upon himself and the Boston Fire Department, in General Order No. 62 of 1989.

The Board recommended that Fire Fighter James W. Rodgers, Ladder Company 26, be awarded the Distinguished Service Award.

O. Case of Fire Fighter (Inspector) Paul Hicks, Fire Prevention Division

On October 13, 1989, at approximately 1930 hours, the K-4 Unit, while in quarters, were informed by a citizen that a person had just broken into a vehicle parked at the curb (vehicle later identified as belonging to a member). This citizen informed Inspectors Hiram Ortega and Paul Hicks that the suspect ran toward Chesterton Street, carrying a tool box on his shoulder. Members pursued the suspect on Chesterton to Allerton to Magazine Streets and Norfolk Avenue. At this time the suspect dropped the tool box and after a short foot chase, Inspector Paul Hicks apprehended this person.

K-4 notified Fire Alarm Office to have Boston Police meet them in quarters and the suspect was transported there and turned over to Boston Police.

Inspector Hicks pursued this suspect at great personal risk since Inspector Hicks was unarmed.

The Fire Commissioner commended Fire Fighter (Inspector) Paul Hicks, Fire Prevention Division, for his aggressive actions in General Order No. 65 of 1989.

The Board recommended that Fire Fighter (Inspector) Paul Hicks, Fire Prevention Division, be awarded the Distinguished Service Award.

CITY OF BOSTON

Proceedings of City Council

Wednesday, October 25, 1989.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 1 p.m., President IANNELLA in the chair. Absent, Councillor McCORMACK.

OPENING OF MEETING

The Reverend Robert Costello, St. Monica's Parish, South Boston, delivered the invocation, and the meeting was opened with the salute to the flag.

DISAPPROVING ORDINANCE REQUIRING INSPECTIONAL SERVICES DEPARTMENT TO CONDUCT ANNUAL INSPECTION OF ROOFS AND FLOORS OVER SWIMMING POOLS USED BY PUBLIC

The following was received:

City of Boston
Office of the Mayor

October 20, 1989.

To the City Council.

Dear Councillors:

I return herewith without my signature and disapproved an ordinance passed by your Honorable Body on October 4, 1989, Docket Number 1269, which would require the Inspectional Services Department to conduct an annual inspection of roofs and floors over swimming pools used by the public in the City of Boston.

My reason for disapproval is that my staff is currently pursuing an amendment to the State Building Code which I believe would more effectively achieve the public safety goals endorsed by the Council's ordinance. Further, that amendment would not only accomplish the goals of the proposed ordinance, it would place the responsibility for any such inspection on the owners or managers of the pools. In addition, under the amendment, results of any tests would have to be filed with the local building official of a city or town. In that way, the Inspectional Services Department would be aware of any unsafe and dangerous conditions of roofs and ceilings over public and semi-public pools and could take appropriate steps to remedy such conditions.

Respectfully,

Raymond L. Flynn,
Mayor of Boston.

(Annexed hereto is the ordinance referred to.)

On motion of Councillor HENNIGAN CASEY, the message was placed on file.

SUPPLEMENTAL APPROPRIATION OF \$198,000 FOR HEALTH AND HOSPITALS DEPARTMENT TO PROVIDE SERVICES FOR HOMELESS

The following was received:

City of Boston
Office of the Mayor

October 24, 1989.

Boston City Council.

Dear Councillors:

I transmit herewith a supplemental appropriation in the amount of \$198,000 to the Department of Health and Hospitals.

I am requesting that these funds be appropriated to the Department of Health and Hospitals to support a pilot program to provide health care for homeless Boston families housed in area motels, services to assist homeless families and others at the Boston City Hospital shelter, and support for the City's literacy and job training services for the homeless.

The cutbacks in state programs to aid homeless individuals and families will have an immediate impact on the City of Boston, as well as other municipalities in the Commonwealth. While the city simply cannot afford to take over the commitment which has been abandoned by the Commonwealth, we are very conscious of the human impacts of these cuts. This one-time assistance can only provide limited stopgap assistance to families in greatest need.

This supplemental appropriation is supported by unanticipated revenues of \$198,000 in funds returned by defendants accused and convicted of stealing parking meter revenues from the City.

The difficult fiscal attention the City facing in FY90 will be even more problematic in FY91. When even small additional revenues are made available, I will continue to channel them expeditiously to address high priority needs. However, in light of the poor prospects for FY91, both these recommended appropriations can only be one-time efforts because of the uncertainty of future revenues.

I will continue to work aggressively to seek out new recurring revenues to support City services. However, it is obvious that the City of Boston will be facing increasingly difficult funding decisions without new revenues in the form of either additional local aid, or new options for generating revenues from other sources.

Sincerely,

Raymond L. Flynn,
Mayor.

Ordered, That in addition to the appropriations heretofore made to meet current operating expenses of the Health and Hospitals Department in the fiscal period commencing July 1, 1989, and ending June 30, 1990, the sum of \$198,000 be, and the same hereby is, appropriated, said sum to be met from available funds:

011-610-0600, Health and Hospitals Department, Contractual Services, \$198,000.

Referred to the Committee on Ways and Means.

ORDER ESTABLISHING COMMISSION ON HISPANIC AFFAIRS

Couns. BOLLING and HENNIGAN CASEY offered the following:

City of Boston

In the Year Nineteen Hundred and Eighty-nine.
An Ordinance Establishing A Commission on Hispanic Affairs.

Be it ordained by the City Council of Boston, in accordance with the provisions of Massachusetts General Laws chapter 43B, section 13, and any other applicable law, as follows:

Whereas, A 1985 Boston Redevelopment Authority (BRA) household survey determined there were almost 50,000 Hispanics living in the City; and

Whereas, Hispanics have the youngest age distribution in the City, with nearly half aged 19 or younger and 70 percent under age 30;

Whereas, Hispanics are the fastest growing population in the City, as well as the Commonwealth and the nation; and

Whereas; The BRA projects the City's Hispanic population will increase by a rate of 41 percent over the next 20 years; and

Whereas, Hispanics, as a group, are severely impacted by the problems of unemployment, poverty and lack of quality education programs; and

Whereas, A 1987-88 survey of Boston's low income neighborhoods found: 49 percent of Hispanic families are impoverished; 47 percent of Hispanics not living in families are impoverished; and 70 percent of Hispanic children come from poor families; and

Whereas, Hispanics have the highest drop-out rate in the city's school system and, in 1987, half of all Hispanic family heads of households had no high school diploma; and

Whereas, The Hispanic community has never had elected representation in Boston city government; and

ORDINANCE AMENDING CBC, ORDINANCES,
REVISED 6-2.2, POWERS AND DUTIES OF
COMMISSIONER OF ASSESSING

Coun. KELLY offered the following:
PREAMBLE

Whereas, The Assessing Department of the City of Boston is responsible for gathering data on residential and commercial property in the City of Boston; and

Whereas, The Assessing Department's records are utilized by all city departments for locating property owners; and

Whereas, At present, the Assessing Department does not require non-occupant owners to provide a bona-fide principal mailing address, which is the principal address at which the owner actually resides, and this often results in tax bills being mailed to vacant lots, vacant buildings, and tax delinquent non-occupant owner dwellings; and

Whereas, This practice of allowing property owners to list any address, including P.O. boxes, with the Assessing Department, as the mailing address for Assessing purposes, presents a serious threat to residents of the City of Boston inasmuch as non-occupant owners often cannot be located by agencies or departments of the city responsible for enforcement of city regulations, laws and state statutes; and

Whereas, It is clearly in the public safety, well-being and health that one centralized city record, showing the bona-fide residential address of owners of residential property located in the city of Boston be available to all city departments, especially the police, fire, inspectional services, code enforcement and health and hospital departments; and

Whereas, In the absence of this information important investigations are delayed, and in some instances innocent lives are placed in jeopardy because of the city's inability to quickly locate non-occupant owners; and

Whereas, Under c. 59, section 39D of the Mass. General Laws, the board of assessors may request property owners to provide under oath such information as may be reasonably required by it to determine the fair cash valuation of property; and

Whereas, In the City of Boston the existence of a large number of non-occupant owner dwellings makes it difficult and in some instances impossible for the assessing department to locate actual owners, and this inability to locate such a large number of non-occupant owners makes it impossible in cases where taxes are due for the assessing department to make a timely effort to collect taxes, and this situation can be corrected by simply requesting owners of assessed residential property in the City of Boston to provide the principal address of all legal and beneficial owners for each parcel of property they own but do not reside at; and

Whereas, During periods of fiscal austerity, it is declared to be in the interest of the residents of the city of Boston to have the assessing department's records as accurate as possible to ensure that timely collections can be made, and delinquent owners may be located in a timely fashion; be it therefore

City of Boston

In the Year Nineteen Hundred and Eighty-nine.

An Ordinance Amending CBC, Ordinances,
Revised 6-2.2.

Be it ordained by the City Council of Boston, as follows:
CBC, Ordinances, Revised, 6-2.2 is hereby amended by adding the following new section, 6-2.2A.

Section 1. It is hereby declared to be in the interest of the City of Boston for all owners of residential property located in the city, to provide the city Assessing Department with an affidavit of principal address, said principal address being the address at which each legal and/or beneficial owner actually resides.

Section 2. Due to the large number of non-occupant owner dwellings in the city of Boston, the city hereby declares it to be consistent with c. 59, section 39D of the

Mass. General Laws for the Assessing Commissioner to request that all owners of residential property assessed in the city of Boston file under oath, for each dwelling they own in the city of Boston, an affidavit of principal address of the owner, said affidavit stating the address at which each legal and/or beneficial owner of said dwelling actually resides.

Section 3. Consistent with this policy, the Assessing Commissioner shall, to the best of his or her ability, ensure that the provisions of this section are strictly enforced for all residential transaction which come before the Assessing Department, and to ensure that the Suffolk County Registry of Deeds office, all relevant agencies and/or departments of the city of Boston, all banks and mortgage, or other lending institutions, be made knowledgeable of the provision of this ordinance.

Section 4. The Assessing Commissioner shall cause to be sent to each non occupant owner, an affidavit stating the requirements under this ordinance.

Section 5. Where the Commissioner has reason to believe that a non occupant owner has not complied with the provisions of this ordinance, the Commissioner may, under the provisions of c. 59, section 38E of the Mass. General Laws, and in addition to other penalties which may be due, require said owner to appear and testify under oath as to the principal address at which they actually reside.

Referred to the Committee on City and Neighborhood Services.

ORDINANCE AMENDING CHAPTER 34 OF THE ORDINANCES OF 1984 (RENT EQUITY ORDINANCE)

Coun. KELLY offered the following:

City of Boston

In the Year Nineteen Hundred and Eighty-nine.

An Ordinance Chapter 34 of the Ordinances of 1984.

Be it ordained by the City Council of Boston, as follows:

Whereas, When the housing committee of the City Council re-wrote chapter 34 of the Ordinances of 1984, it strove to ensure equity and balance throughout; and

Whereas, The City Council has amended chapter 34 on several occasions when it has learned that the language adopted perpetuated unreasonable disadvantage to landlords and/or tenants; and

Whereas, The exemptions delineated in section 1, (n)(ii) of chapter 34, governing adjoining structures was interpreted last year by the housing court to mean structures on adjoining lots; and

Whereas, Last year, when the housing committee strove to amend the language to provide relief for small property owners, usually family members, who owned two separate homes on adjoining lots, the council referred the matter back to committee to ensure that the exemption only applied to small property owners and not large developers who owned several buildings on adjoining lots; and

Whereas, The City Council has historically recognized the financial difficulty encountered by small property owners; be it therefore ordained by city council as follows:

Section 1 (n)(ii) of chapter 34 of the Ordinances of 1984 as amended, is hereby further amended, by including the following new language after the last sentence in section 1(n)(ii):

"provided further, that two, two-family homes, a single-family and an owner-occupied three-family, or a two-family and an owner-occupied three-family home that are adjoining, shall be considered exempt under the provisions of this section, where the legal or beneficial

owner of the two properties is an individual or family, living in the second of the two structures, and not a corporation or second business entity.

Referred to the Committee on Housing.

EMERGENCY PREAMBLE

Coun. MENINO offered the following:

Whereas, In light of recent cuts in local aid to the City of Boston, it is imperative that the City take advantage of all available financial resources; therefore be it

Ordered, That the rules of the Boston City Council are suspended and the attached order is properly before the body.

The Emergency Preamble was adopted.

Rule 11 was suspended.

COMMITTEE ON WAYS AND MEANS TO HOLD HEARING TO INVESTIGATE USE OF FUNDS COLLECTED FOR ADMINISTRATIVE COSTS RELATED TO PRIVATE POLICE DETAILS

Coun. MENINO offered the following:

Whereas, It was learned recently that funds collected by the Boston Police Department for administrative expenses related to private police details have not been deposited into the City's general fund as required by law; and

Whereas, Instead of being deposited into the general fund, these funds were deposited into a non-interest-bearing account; and

Whereas, It is essential that the City of Boston take advantage of all available financial resources in order to ensure the delivery of basic city services; therefore be it

Ordered, That the Boston City Council's Committee on Ways and Means conduct a hearing to investigate the use of funds collected for administrative costs related to private police details.

SUPPLEMENTAL APPROPRIATION OF \$100,000 TO POLICE DEPARTMENT

The following was received:
City of Boston
Office of the Mayor

October 31, 1989.

Boston City Council.

Dear Councillors:

I transmit herewith a supplemental appropriation in the amount of \$100,000 to the Boston Police Department.

I am requesting that these funds be appropriated to the Police Department to almost double the size and financial commitment to the Department's neighborhood crime watch program. This request directly responds to our constructive discussion at the Parkman House on October 27th relative to public safety in the City of Boston.

Expanded neighborhood crime watch programs alone will not solve the pressing public safety problems facing the City. But additional support for crime watch activities reflects our commitment to encouraging citizens throughout the City to work together to combat illegal activity. This funding will increase the Crime Watch staff by two thirds, as well as providing added funds to enhance the work of existing staff and neighborhood groups.

Funding to support this supplemental request will come from administrative charges received to support the Department's paid detail program. Since no revenues from this account were budgeted in FY90, these funds are available to be appropriated.

I am encouraged by our cooperative discussion last week. We must continue to work together to address the very difficult public safety and fiscal issues facing the City in the coming year.

Sincerely,

Raymond L. Flynn,
Mayor.

Ordered, That in addition to the appropriations heretofore made to meet current operating expenses of the Police Department in the fiscal period commencing July 1, 1989, and ending June 30, 1990, the sum of \$100,00 be, and the same hereby is, appropriated, said sum to be met from available funds:

011-211-0211, Police Department
Personal Services, \$50,000
Contractual Services, \$30,000
Supplies and Materials, \$15,000
Equipment, \$5,000

Referred to the Committee on Ways and Means.

REQUESTING MAYOR FORWARD TO COUNCIL
APPROPRIATION OF \$250,000 TO BE
MATCHED BY PRIVATE SECTOR TO BE EX-
PENDED IN CREATING AND ENHANCING
NEIGHBORHOOD CRIME WATCH PRO-
GRAMS

Coun. SCONDRAS, SALERNO, BOLLING, HEN-

NIGAN CASEY, McLAUGHLIN, and BYRNE offered the following:

Whereas, At a meeting held between the Mayor of the City of Boston and members of the Boston City Council a variety of suggestions and proposals were offered for consideration to deal with the problems of drug related violence in the city; and

Whereas, Many of those proposals will require considerable reflection, research and the identification of millions of dollars of new revenues; and

Whereas, The City Council is committed to this research and will consider every proposal for revenue enhancement; and

Whereas, The Council is aware that any revenue enhancement may require action by the State House and will take a good deal of time; and

Whereas, There needs to be a first step taken to ensure the public of our commitment to public safety; and

Whereas, One proposal supported by many can be quickly and effectively implemented namely enhancement of neighborhood crime watch programs; and

Whereas, Such programs have proven to be an important part of fighting crime, providing both immediate security for residents and valuable information to the police; now therefore be it

Resolved, That as a first immediate step toward solving the problem of drug related violence the Mayor forward to this body an appropriation of \$250,000 to be matched by the private sector to be expended in creating and enhancing neighborhood crime watch programs, including but not exclusive to Streetsafe, Drop-a-Dime and other programs which need additional resources. Such appropriation shall be used to provide materials and support staff to ensure the creation of effective crime watch programs in all neighborhoods; and be it further

Resolved, That this body in meeting assembled does hereby request that the private sector donate to this crime watch fund; and be it further

Requested, That the Mayor make a personal appeal to the private sector to provide resources toward effective crime watch programs.

REMOVING BAN ON PURCHASE OF ICELANDIC FISH PRODUCTS BY CITY OF BOSTON

Couns. IANNELLA and SCONDRAS offered the following:

Whereas, On September 14, 1988, this Council adopted a resolution by which the city refrained from the purchase of Icelandic fish products during the pendency of an international boycott of such products, and,

Whereas, This boycott was called by Greenpeace and other environmental organizations to protest the killing of whales by Iceland, and,

Whereas, In part owing to the international boycott of its products, Iceland announced on July 27, 1989, that it would no longer kill whales, and,

Whereas, In response to this action, Greenpeace and other sponsors of the boycott have announced the end of the protest, therefore be it

Resolved, That in recognition of Iceland's decision to join the world-wide ban on the killing of whales, the Purchasing Department and the School Department of the City of Boston be, and hereby are, advised that they need no longer refrain from the purchase of Icelandic fish products.

The resolution was adopted under suspension of the rules.

RESOLUTION ENDORSING RECYCLING INITIATIVE

Couns. SCONDRAS, BOLLING, MENINO, SALERNO, TRAVAGLINI, HENNIGAN CASEY, IANNELLA and McCORMACK offered the following:

Whereas, Massachusetts produces six and a half million tons of solid waste every year yet recycles only about 7 percent; and

Whereas, The traditional "burn or bury" methods of trash disposal have contaminated drinking water supplies, polluted the air, and depleted our natural resources; and

Whereas, The Recycling Initiative would promote solid waste reduction and recycling by requiring that, by 1996, all packaging used in Massachusetts be either reusable or made of recycled or recyclable materials; be it

Resolved, That the Boston City Council, in meeting assembled, endorses the Recycling Initiative in order to protect the quality of Massachusetts' water and air, preserve natural resources; and save millions of tax dollars now wasted on garbage disposal by making reduction and recycling the priorities in the state for dealing with solid waste; and be it further

Resolved, That the Boston City Council strongly urges others to endorse the Recycling Initiative.

ENCOURAGING OUR CONGRESSIONAL DELEGATION TO SUPPORT SENATOR KENNEDY'S ADJUSTMENT TO TAFT-HARTLEY ACT ALLOWING FOR HOUSING TRUST FUND AND TO DEFEAT ANTI-WORKER LEGISLATION STANDING IN ITS WAY

Couns. SCONDRAS, MENINO, SALERNO, and TRAVAGLINI offered the following:

Whereas, The 5,000 members of Local 26 are service workers who are representative of Boston's racial and ethnic diversity; and

Whereas, Service workers have the right to live and work in the same community; and

Whereas, Local 26 members often work two jobs with three or four jobs worked in a family, but still 98 percent cannot afford to purchase a median priced home and 78 percent cannot afford to rent a medium priced apartment; and

Whereas, While workers have the right to negotiate with employers for pension benefits, legal assistance, and childcare assistance, they should have the right to negotiate with employers for housing assistance; and

Whereas, A housing trust fund, administered by both union and management, would provide downpayment assistance, reduced mortgage rates, loan collateral, and the initial cost for an apartment rental; and

Whereas, One million dollars was negotiated for this housing trust fund which requires Congress to adjust section 302(c) of the Taft-Hartley Act by May 31, 1990; and

Whereas, Senator Kennedy as chairman of the Senate Labor and Human Resources Committee oversees an adjustment allowing for a housing trust fund which would remain taxable and would be negotiated when both union and management agree to such a trust; and

Whereas, Senator Kennedy has been working since December, 1988, when he first found out about the Local 26 Housing Trust Fund, to help the dream of Boston hotel workers come true; and

Whereas, Senator Kennedy has identified that there is "a serious rick that anti-worker amendments to (Taft-Hartley) might not be able to be defeated; be it

Resolved, The Boston City Council, in meeting assembled, strongly encourages our Congressional delegation to support Senator Kennedy's adjustment to the Taft-Hartley Act allowing for a housing trust fund and to do

whatever is necessary to defeat anti-worker legislation that may stand in its way.

The resolution was adopted under suspension of the rules.

MAYOR FLYNN KICKS OFF STEPPED-UP BOSTON YOUTH CAMPAIGN

*Announces Thompson Island Event
for June 9th*

Pledging to surpass last year's success, Mayor Flynn, and business and community leaders kicked-off a stepped-up Boston Youth Campaign at the Agassiz Community School in Jamaica Plain.

Their hope to top the City's 1989 youth job and activity level comes in spite of the city's tight financial constraints and increased reliance on the business community for jobs and resources.

"The City of Boston is facing some difficult financial times," Flynn stated, "but we are not going to allow fiscal challenges to stand in the way of our young people's progress. We are actively recruiting job openings throughout the city for all of our youths who want to work."

Last summer's successful campaign provided 7,200 jobs, sponsored several hundred events and incorporated over 5,570 volunteers — all of which helped make it one of the quietest summers ever in Boston. In meetings preceeding the release of the "Safe Neighborhoods Plan" this spring, Boston youths stressed the continued need for mentors, educational and recreational programming and jobs to help them beat the temptations on the street this summer. The Youth Campaign plans on addressing these needs.

Ted Landsmark, Director of the Boston Safe Neighborhoods Plan said, "As we worked to finalize the Safe Neighborhoods Plan with over 150 community residents at the St. John's Seminary retreat this spring, it was clear from the teens who joined us that they want jobs, positive role models and mentors and quality recreation and educational facilities. This year's Boston Youth Campaign will work to provide this.

Dozens of Boston youngsters, and business and community leaders joined Mayor Flynn at the Agassiz Community School on May 22 when he announced a stepped-up effort to provide jobs and activities for youths as part of the Boston Youth Campaign.

In spite of fiscal challenges, the Mayor hopes to top last year's successful Youth Campaign.

Pictured above, Mayor Flynn watches as a youngster signs a blow-up of the pledge card.

Mayor Flynn also announced that again this year, the city is sponsoring a Boston Youth Campaign summer kick-off for an estimated 1,000 kids and 1,000 adults at Thompson's Island on Saturday, June 9.

Mayor Flynn also announced that again this year, the city is sponsoring a Boston Youth Campaign summer kick-off for an estimated 1,000 kids and over 1,000 adults at Thompson's Island on Saturday, June 9. This event will provide games, entertainment and lunch. The youths will be transported to Long Wharf from across the city and will cruise to the island for the day-long event. Registration for Thompson's Island is available through local Boston Community School, Boston Housing Authority or Boys and Girls Club sites.

The Boston Youth Campaign Hotline will again be 725-HOPE

which will be staffed around the clock. Youths seeking employment or looking for information about Youth Campaign events should call 725-HOPE. Anyone with spare time, a job to offer or resources to donate should also call 725-HOPE. This year's Youth Campaign coordinator is Frank O'Brien who is on staff at the Mayor's Office of Neighborhood Services.

Mayor Flynn added, "Working together with concerned individuals, the business community and non-profit groups, we can show our young people that hope and opportunity are alive and well in Boston — in its people and its neighborhoods."

**"PLAY BALL" PHOTO
EXHIBIT EXTENDED
THROUGH JUNE AT THE BPL**
*Features Photos from
the McGreevey Collection*

Many of baseball's greatest heroes of years past are included in a photo exhibit called "Play Ball" that has been extended through June in the Wiggin Gallery of the Boston Public Library in Copley Square. The popular exhibit features 33 photographs of many of baseball's legends, such as Babe Ruth, Lou Gehrig, Ted Williams, Joe and Dom DiMaggio, Rogers Hornsby, Cy Young, Walter Johnson, Warren Spahn, and "Dizzy" Dean. The oldest photo in the exhibit was taken in 1890, while the most recent was a 1971 photo from the former *Boston Herald* morgue.

Several of the photographs come from the Boston Public Library's McGreevey Collection. Born in Roxbury in 1866, Michael T. "'Nuf 'Ced'" McGreevey, saloon keeper, baseball fan, and the "Grand Exalted Ruler of Rooters' Row" was the most famous sports figure in Boston at the turn of the century. He was a diminutive, irascible, unforgettable bartender who owned and operated a Roxbury saloon called the Third Base . . . "the last place you stop on the way home." Soon the bar became part saloon and part baseball museum as McGreevey displayed photographs of ballplayers behind the bar and decorated the place in a baseball motif.

Probably the first sports bar in America, the Third Base had a long, intricately carved bar at which some of Boston's most famous athletics and politicians of the time would gather after home games to discuss the fortunes and failures of Boston's two big league teams, the Nationals and Americans. When their ale-fueled discussions turned into arguments, McGreevey would leap into the fray and with his booming voice would shout, "'nuf 'ced!" thus ending the argument on the spot and

earning him a life-long nickname and a lasting place in Boston's sports lore.

Patrons of the bar, which included baseball stars like Mike "King" Kelly and then Congressman John F. "Honey Fitz" Fitzgerald, formed the "Royal Rooters." With McGreevey as their unofficial leader, the Rooters paraded en masse to the baseball games where they became the loudest and most famous group of baseball fans in the country. The Rooters also formed their own band, waved banners, and sang songs throughout the most one-sided contests, doing all they could to help cheer Boston on to victory.

In 1916, following the construction of both Fenway Park and Braves Field, McGreevey moved the tavern from 940 Columbus Avenue to corner of Ruggles and Tremont Streets. Fans and Rooters continued to gather there until 1923 when prohibition forced the bar to be closed. The building later became the Roxbury Crossing Branch Library.

McGreevey's widow later donated his photographs to the Boston Public Library where they became the centerpiece for the library's "Boston

Tradition in Sports" special collection housed in the Print Department which includes the archives of the late Boston sportswriters and authors Al Hirshberg and Harold Kaese, Sam Silverman, Boston's "unsinkable" former boxing promoter, a number of photographs taken by the late Lie Jones who for 39 years covered baseball for the *Boston Herald*, and other sports-related collections.

The McGreevey collection is perhaps the largest coherent collection of late 19th and early 20th century baseball photographs in existence. The 150 or more photographs feature fans and players from Boston and other major league cities in both studio and action shots.

The Third Base saloon is just a bit of interesting Boston sports trivia today, but "'Nuf 'Ced'" McGreevey, through the photographic collection that bears his name, continues to contribute to Boston's unique sporting legacy.

'Nuf 'ced, play ball.

It is the policy of the City of Boston to award at least 15 percent of the City's contract dollars to minority-owned businesses and at least 5 percent to women-owned businesses.

WANT A CIGARETTE?

If you've quit smoking and still want a
 cigarette, you're normal. You've done a
 good job so far — keep it up. If you need
 help, ask someone to be your lifeguard.
 This person's responsibility is to rescue you
 when the urge for a cigarette gets too
 strong. Your lifeguard can talk to you, go for
 a walk with you, share a low-calorie soda
 with you, go shopping with you, or throw
 paper airplanes with you. Anything that will
 distract you until the urge passes.

APPROPRIATION OF \$11,600,000
FOR SCHOOL DEPARTMENT

The following was received:

City of Boston
Office of the Mayor

November 6, 1989.

To the City Council.

Dear Councillors:

As obligated by M.G.L. C. 150, s. 1, et seq., I am
forwarding to the City Council for its consideration the
recently negotiated collective bargaining agreement be-
tween the School Committee and the Boston Teachers
Union. I expect to be talking with you in the coming days
about the city's difficult financial situation as it relates to
this contract.

Sincerely,

Raymond L. Flynn,
Mayor of Boston.

Ordered, That pursuant to the provisions of Chapter
224 of the Acts of 1936, as amended by the Chapter 190
of the Acts of 1982, and as further amended by Chapter
701 of the Acts of 1986 and Chapter 613 of the Acts of

and to meet the current operating expenses of the School

mittee in the fiscal period commencing July 1, 1989 and

eration would not prevail.

DISAPPROVING ORDER THAT AUDITOR BE IN-
STRUCTED TO TAKE CERTAIN ACTION RE
PAYMENT OF TELEPHONE BILLS AND THAT
MAYOR INITIATE CERTAIN LEGAL ACTION

The following was received:

City of Boston
Office of the Mayor

November 2, 1989.

To the City Council.

Dear Councillors:

I return herewith without my signature and disap-
proved an order passed by your Honorable Body on Oc-
tober 18, 1989, Docket Number 1340. That order would
appear to direct the City Auditor to take certain action
with respect to the payment of telephone bills and to fur-
ther direct that the Mayor initiate certain legal action.

As the Council is well aware, and as I have had occa-
sion to specifically state from time to time on many other
matters, the City Charter prohibits the Council from tak-
ing part in the conduct of the executive or administrative
business of the City. St. 1948, c. 452, s. 17G, as appear-
ing in St. 1951, c. 376, s. 1. Nor is the Council permit-
ted, directly or indirectly, to take part in the making of
contracts. Id. Further, adherence to the terms of the Or-
der is nearly impossible because the language of the or-
der is so vague. It does not reveal the types of "dam-
ages" to which the order refers, and does not state
whether or under what circumstances such damages may
exist, how or when those damages were incurred, or who
incurred them.

Notwithstanding the above, the intent of the Council's
Order before me seems clear: The Council wishes the
administration to present to the Department of Public
Utilities information about loss of service and service
reductions within Boston.

In addressing that legitimate concern, I wish to inform
the Council that this administration is an intervening
party in a pending rate case brought by the New England
Telephone Company at the Department of Public Utili-
ties. That case allows for any party, including the City, to
bring service related issues to the attention of the De-
partment of Public Utilities. Given the now three-month long
work stoppage at New England Telephone and the signif-
icant service curtailments that the Company itself has
cited, the City will present in that case any relevant infor-
mation concerning loss of service or damages suffered
that is brought to its attention. Once that information is
before that Department, you can be assured that the City
will seek whatever remedies are available from the De-
partment.

Respectfully,

Raymond L. Flynn,
Mayor of Boston.

(Annexed hereto is the order referred to.)

Placed on file.

DISAPPROVING ORDINANCE AMENDING CBC,
ORDINANCE, TITLE 9, INSPECTIONAL
SERVICES DEPARTMENT

The following was received:

City of Boston
Office of the Mayor

November 9, 1989.

To the City Council.

Dear Councillors:

I return herewith without my signature and disap-

proved an ordinance passed by your Honorable Body on October 25, 1989, Docket No. 1385, which would prohibit the opening to the public of an enclosed swimming pool within the City of Boston except pursuant to a permit issued by the Commissioner of the Inspectional Services Department.

The Law Department has advised me that in its present form the ordinance is so vague as to render it defective and unenforceable. For example, the ordinance requires pool owners to provide "proof of inspection by a registered engineering firm." However, it fails to specify what type of proof will suffice, what standards for inspections must be followed, or what type of engineering firm must conduct such inspections. Presumably, any party meeting the indefinite standard of proof required by the ordinance would be absolutely entitled to a permit. As a result of its vagueness, the ordinance would potentially make the Commissioner of Inspectional Services' duties merely ministerial, leaving him without the ability to exercise sufficient discretion and control over the issuance of permits.

Further, it is my understanding that the main intent of the ordinance is to insure the annual inspection of roofs and ceilings over public and semi-public pools. As worded, however, the ordinance only requires the inspection of pools themselves. When read in conjunction with applicable building regulations it would not be interpreted to specifically or implicitly require the inspection of roofs or ceilings over pools.

Although I would fully support the enactment of stronger measures providing for more stringent inspection of public pool areas, I feel that to be fully effective any such measures must be more narrowly drawn and specifically worded than the ordinance now proposed.

Respectfully,

Raymond L. Flynn,
Mayor of Boston.

(Annexed hereto is the ordinance referred to.)

Assigned for further action.

DISAPPROVING ORDER TO REQUIRE ADDITIONAL SPACE IN DOCK SQUARE GARAGE BE SET ASIDE FOR HANDICAPPED PARKING

The following was received:

City of Boston
Office of the Mayor

November 13, 1989.

To the City Council.

Dear Councillors:

I return herewith without my signature and disapproved an order passed by your Honorable Body on October 25, 1989, Docket Number 1365, which would require additional space in the Dock Square garage be set aside for handicapped parking.

The City of Boston has a variety of parking programs which allow disabled citizens full access to Boston City Hall. First, any disabled resident who requests a space in the Dock Square garage in order to conduct business at City Hall receives authorization to park there for the time necessary to complete the transaction. Secondly, the Boston Transportation Department has designated thirty-five handicapped spaces in the area immediately adjacent to City Hall and this designation is strictly enforced. Also, there are an additional one hundred and fifty reserved handicapped spaces within a one mile radius of City Hall subject to the same rigorous enforcement. Lastly, Traffic Rules and Regulations, Article IV, Section IV, states that "No fee shall be required to be deposited in a parking meter as provided in this Section for the parking of any vehicles owned and driven by a disabled veteran or by a handicapped person and bearing

a distinctive number plate authorized by Section II of Chapter 90 of the General Laws."

I agree with the concern expressed by the Council pertaining to access for our handicapped citizens, and I will continue to maintain a handicapped parking program that safeguards parking privileges for handicapped persons at City Hall.

Sincerely,

Raymond L. Flynn,
Mayor of Boston.

(Annexed hereto is the order referred to.)

Assigned for further action.

CERTAIN INFORMATION UNDER SECTION 17F RE EXECUTIVE ORDERS

The following was received:

City of Boston
Office of the Mayor

November 16, 1989.

City Clerk

Re: "17F Request — Executive Orders"

Dear Mr. Campbell:

The City Council, pursuant to the provisions of St. 1948, c. 452, s. 17F, has requested certain information concerning Executive Orders issued since January 2, 1984. (Docket No. 1104, 1985.)

The legal authority to exercise executive powers is contained in the City Charter.

"The executive powers of said city . . . shall be and hereby are vested in the mayor, to be exercised through the several officers and boards of the city in their respective departments, under his general supervision." CBC St. 5, c. 3, s. 100.

"The several officers and boards of the city shall be at all times accountable for the proper discharge of their duties to the mayor, as chief executive officer . . ." CBC St. 5, c. 3, s. 101."

An executive order is simply a mayoral directive as to how any or all of the officers and boards of the city shall discharge their duty. It is not necessary that the directive be stated in writing. Were an officer or board to refuse to comply with an executive order, they could be presumed to be failing to properly discharge their duties, and this or any other mayor could discipline them accordingly.

Some Executive Orders are reduced to writing, typically those which embody major executive policy, and which more directly impact the public. Often the written Executive Order will spell out what penalties the officer or board is to impose if the policy is not complied with. Copies of such major written Executive Orders issued since January 2, 1984 are enclosed.

Sincerely,

Raymond L. Flynn,
Mayor of Boston.

**EXECUTIVE ORDER OF MAYOR RAYMOND L.
FLYNN PROHIBITING CITY OF BOSTON DE-
PARTMENTS FROM PURCHASING SHELL
OIL PRODUCTS**

Whereas, Royal Dutch/Shell, by and through its wholly-owned subsidiary, the Shell Oil Company (hereinafter Shell), profits from the South African apartheid system by supplying the South African government, military, and police with oil; and

Whereas, apartheid is the political and social means used in South Africa to oppress the black majority, and Shell literally helps to fuel that system; and

Whereas, Shell has refused to divest its South African holdings; and

Whereas, the City of Boston, as a free market participant, may govern its own economic conduct by choosing whether or not to do business with any particular entity; and

Whereas, doing business with an equity which supports and profits from the South African apartheid system through such direct and critical economic involvement is morally repugnant and would undermine respect and support for City of Boston policies and agencies designed to enhance cooperation and respect between peoples of different races; and

Whereas, any measure less restrictive than a full boycott of Shell would fail to protect and promote the legitimate local interests of the City; and

Whereas, the City Council through the leadership of Councillors Travaglini, Bolling, Iannella, Salerno, Scondras, Yancey, Menino, McCormack, McLaughlin, and Hennigan Casey has expressed its majority view that the City of Boston should boycott Shell products; now,

THEREFORE, I do hereby ORDER that the following shall take effect on January 1, 1989:

That all City departments and agencies are hereby prohibited from purchasing Shell products until such time as Shell Oil Company and Royal Dutch/Shell divest themselves of their South African holdings and leave South Africa or until the South African government shall conclusively end its system of apartheid, whichever shall first occur.

**EXECUTIVE ORDER OF MAYOR RAYMOND L.
FLYNN REGARDING PURCHASE OF GOODS
AND SERVICES FROM U.S. CORPORATIONS,
COMPANIES AND PARTNERSHIPS OPERAT-
ING IN NORTHERN IRELAND**

Whereas, the City of Boston has a legitimate interest in ensuring that its funds are expended in a manner consistent with the City's commitment to fairness and to equal opportunity; and

Whereas, it is evident that there currently exists in Northern Ireland a society which is plagued by social, ethnic and religious inequality; and

Whereas, in Northern Ireland, adult Catholic males are more than two and one-half times more likely to be unemployed than adult Protestant males; and

Whereas, the unemployment rate for Catholics is over forty percent in certain areas of Northern Ireland; and

Whereas, the British government this year failed to enact fair employment legislation that provides in actual substance for affirmative action and for the setting of

goals and timetables for the hiring of more members of the Catholic community; and

Whereas, social harmony in our City is promoted by a policy which expresses the serious concerns many of our residents have regarding the lack of improvement in the conditions in Northern Ireland; and

Whereas, fundamental changes must be made to improve the situation in Northern Ireland, and the City of Boston must be part of the solution as agents for change; and

Whereas, there currently exists a reasonable and effective set of equal opportunity affirmative action principles, commonly referred to as the MacBride Principles, designed to guarantee equal access to regional employment in Northern Ireland; and

Whereas, The MacBride Principles include the following standards regarding fair employment principles to be carried out by U.S. corporations, companies and partnerships doing business in Northern Ireland:

1. Equal access to employment, promotion, and job-preservation without regard to religious affiliation or other minority status.

2. The banning of provocative religious or political emblems from the workplace.

3. That all job openings should be publicly advertised and special recruitment efforts should be made to attract applicants from under-represented religious groups.

4. Layoff, recall and termination procedures should not, in practice, favor particular religious groupings.

5. The appointment of a senior management staff member to oversee the company's affirmative action efforts and the setting up of timetables to carry out affirmative action principles.

6. The development of training programs to prepare members of the minority community in Northern Ireland for skilled jobs and for skills improvement.

7. The abolition of job reservations, apprenticeship restrictions and different employment criteria which discriminate on the basis of religion or ethnic origin.

Therefore, I do hereby Order that the following shall immediately take effect:

1. That all City departments and agencies are hereby prohibited from purchasing or contracting to purchase any goods or services from any corporation, company or partnership organized under the laws of the United States or the several states and operating in Northern Ireland which fails to adhere to guarantees of nondiscrimination in employment and freedom of workplace opportunity, including those embodied in the MacBride Principles; and

2. That the Director of Administrative Services, in consultation with the City of Boston Treasurer and Auditor, shall establish a method for determining which corporations, companies and partnerships are not in compliance with the guarantees cited above, and, in making such determination, (s)he shall consider, without limitation, the following standards of corporate and partnership activity:

(1) equal access to employment, promotion, and job-preservation without regard to religious affiliation or other minority status;

(2) the promotion of religious tolerance within the workplace, and the eradication of any manifestations of religious and other illegal discrimination;

(3) adherence to other legal and regulatory guidelines for nondiscrimination and equality of opportunity existing in Northern Ireland; and

(4) adherence to the MacBride Principles for Northern Ireland, so-called.

3. That the prohibitions contained herein shall become effective only after such a method is devised and after such a determination of noncompliance is made; and

4. That, in the interest of sound and prudent fiscal management, the prohibitions contained herein shall not apply where said application would deprive the City of necessary and important goods or services which cannot reasonably be procured from any other source.

EXECUTIVE ORDER OF MAYOR RAYMOND L. FLYNN REGARDING LINKED DEPOSITS

Whereas, The City of Boston (the "City") desires to use the economic strength inherent in its deposit of public funds as a positive force in shaping the institutional behavior and lending patterns of financial institutions; and

Whereas, The City desires to link the deposit of City of Boston funds and its award of contracts for banking services to an evaluation of financial institutions' contributions to the development, economic health and viability of Boston's neighborhoods, particularly those suffering from high unemployment, shortages of affordable housing, underdevelopment and other ills that threaten neighborhood viability; and

Whereas, The City wishes to institute a linked deposit policy which furthers the policy goals of the City and safeguards the safety of public funds and is consistent with prudent financial management of City of Boston funds; and

Whereas, The City wishes to encourage and promote financial institutions to take an active role in promoting the following critical policy goals;

1. Equality in mortgage lending and banking services in all Boston neighborhoods as required by the Community Reinvestment Act of 1977 as amended and other laws.
2. Participation by financial institutions in city, state, and federal programs, and with local nonprofit community development corporations and with public/private partnerships to promote economic development and the creation and preservation of affordable housing.

4. The provision of credit facilities to small manufacturing and other commercial enterprises striving to remain or become established in the city, including SBA loans.
5. The provision of credit facilities to minority-owned and women-owned businesses.
6. The active recruitment and promotion of minority and women employees.
7. The provision of student loans to residents of Boston.

Therefore, I do hereby Order that the following shall immediately take effect:

1. In order to effectuate the heretofore stated policies the Collector-Treasurer is directed to establish an annual evaluation process which is designed to determine the extent to which current and potential depositories of City of Boston funds or providers of banking services are engaging in activities and practices in furtherance of the heretofore stated policies. This evaluation may include requesting from depositories or service providers information including but not limited to the following categories:

- (1) Residential Lending
- (2) Commercial Lending
- (3) Provision of Banking Services
- (4) Deposit Information
- (5) Lending Application and Rejection Data
- (6) Student Loans
- (7) Hiring and Promotion of Women and Minorities
- (8) Hiring and Promotion of Boston Residents

2. The Collector-Treasurer may review any additional information deemed necessary or desirable in evaluating the performance of financial institutions including but not limited to the public sections of evaluations and reports prepared by federal and state agencies pursuant to the Community Reinvestment Act of 1977 as amended and other statutes. The Collector-Treasurer may also request any other information deemed necessary in order to evaluate the extent to which financial institutions are meeting the City's policy goals stated herein.

3. The Collector-Treasurer is hereby directed to make all information collected available to the public.

4. The Collector-Treasurer is hereby directed to analyze any information gathered pursuant to this executive order to determine the extent to which a depository of City funds or a provider of banking services is engaging in practices and activities consistent with the City's policies as set forth herein. The Collector-Treasurer may hire consultants, request the assistance of the Community Banking Commission (the "Commission") established pursuant to an executive order entitled "Executive Order Regarding Creation of a Community Banking Commission" dated concurrently herewith, or request the assistance of any department or agency of the City to execute this directive. The Collector-Treasurer shall, consistent with sound fiscal practice and applicable law, include as a factor in the choice of financial institutions for the deposit of City funds and the provision of banking services, the extent of active engagement in activities and practices that are in furtherance of the policies as set forth herein. In furtherance of these goals, the Collector-Treasurer may take the following measures:

- (1) Increase the level of City of Boston deposits held by a financial institution.
 - (2) Freeze City of Boston deposits in the institution at their then current level.
 - (3) Withdraw City of Boston deposits from a financial institution.
 - (4) Enter into negotiations with a financial institution aimed at promoting institutional programs and behavior that are consistent with the public policy goals heretofore stated.
 - (5) Take such other steps, consistent with sound fiscal practice and applicable law, as may be necessary or desirable.
5. All departments and agencies of the City are hereby ordered to assist the Collector-Treasurer in evaluating any information gathered pursuant to this executive order in accordance with a request by the Collector-Treasurer.
6. The Collector-Treasurer may seek appropriate assurances from executive management and/or the governing bodies of a financial institution regarding the institution's commitment to the furtherance of the City's policy goals. These assurances may take the form of a pledge, affidavit, or corporate resolution.
7. The Collector-Treasurer shall from time to time report to the Mayor as to the progress and impact of the linked deposit program.

Raymond L. Flynn,
Mayor of Boston.

To the City Council.

Dear Councillors:

I transmit herewith for your approval an order authorizing the City of Boston to apply for, accept and expend \$39,000 in grant monies from the United States Department of Housing and Urban Development.

This request is necessary in order for the Boston Fair Housing Commission to accept the renewal of a grant from the Department of Housing and Urban Development under the federal Fair Housing Assistance Program. This maintenance grant is awarded to support the Commission's enforcement capability.

I urge your Honorable Body to pass this order as expeditiously as possible in order that these funds may be used for the purposes for which granted.

Respectfully,
Raymond L. Flynn,
Mayor of Boston.

RE: FIFTH YEAR AWARD FROM DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT TO THE BOSTON FAIR HOUSING COMMISSION UNDER THE "TYPE I" FAIR HOUSING ASSISTANCE PROGRAM (FHAP) — \$39,000 to be distributed as follows:

(a) \$26,000 to support the agency's fair housing effort in processing those housing discrimination complaints arising within its jurisdiction, except as otherwise stated in the statement of work. The FHC will cooperate with HUD in the handling of housing discrimination complaints under Title VIII of the Civil Rights Act of 1968, as amended, and the fair housing law enforced by the jurisdiction in accordance with the Memorandum of Understanding entered into between HUD and the FHC, and any amendments or revisions thereto executed during the course of this agreement by the signatories. The FHC also agrees to augment its fair housing enforcement efforts by engaging in outreach, education, training and technical assistance pursuant to the Memorandum of Understanding.

(b) \$3,000 will be paid to the FHC for attendance at HUD-sponsored training at National and Regional training sites. These monies may also be used to support additional in-house training by agencies for agency-specific problems and for training of staff unable to attend National or Regional training, subject to approval of the GTM. Failure to send the specified number of participants to training (minimum of 3), will result in a \$1,000 deduction for each non-attendant below the minimum.

(c) \$10,000 to support Incentive Funds activities in accordance with the criteria established in 24 CFR Section 111.105 (b) (3) and the RFA.

Whereas, The Boston Fair Housing Commission was created in 1982 by City ordinance; and

ORDER FOR RELEASE OF CERTAIN RESTRICTIONS TO PUBLIC FACILITIES COMMISSION RE LAND IN WEST ROXBURY

The following was received:

City of Boston
Office of the Mayor

November 21, 1989

To the City Council.

Dear Councillors:

I transmit herewith for your approval an order for the release of certain restrictions ("Restrictions") to the Public Facilities Commission which benefit and burden a parcel of land on Allandale Street in West Roxbury.

The City acquired an approximately 5.185 acre parcel for conservation purposes by an Order of Taking dated June 4, 1975. Prior to the taking, the parcel was one of several that were benefitted and burdened by certain private restrictions, created under a will, which related to use, set-back, diminutions and size requirements.

An abutting parcel was recently developed under a Planned Development area Plan under which 106 housing units are to be created (the "Allandale Project"). In connection with the development, the Developer granted to the Boston Conservation Commission a Conservation Restriction of approximately 17 acres.

The Restrictions, which run with the land taken under the Order of Taking, are inconsistent with the Allandale Project and the Conservation Restriction granted by the Developer. The grant of the Conservation Restriction of approximately 17 acres of land to the Conservation Commission is substantially more beneficial and valuable to the City than any Restrictions which may have survived the Order of Taking.

On August 10, 1989, the Public Facilities Commission, all of its members being present, voted its intent to release the above-described Restrictions.

I urge your Honorable Body to pass this order.

Respectfully,

Raymond L. Flynn,
Mayor of Boston.

Whereas, Design/Housing, Inc., Trustee of Allandale Realty Trust under Declaration of Trust dated January 9, 1988 recorded with the Suffolk County Registry of Deeds (the "Registry") at Book 14420, Page 1, (the "Trust") its successors or assigns, is the owner of a parcel of land containing 43.241 acres (the "Locus") upon which the Trust is constructing a project which, when completed, will consist of 106 residential units together with ancillary and accessory uses (the "Project") all as set forth in a Development Plan approved by the Boston Redevelopment Authority on August 19, 1987, pursuant to City of Boston Zoning Code, Article 3, Section 3-1 (a); and

Whereas, in connection therewith the Trust conveyed to the Boston Conservation Commission a Conservation Restriction encumbering 18.2 acres of the Locus, receipt of which was passed by the City Council on March 22, 1989, and was approved by the Mayor on April 10, 1989 and duly recorded with the Registry at Book 15543, Page 141; and

Whereas, certain land described in an unrelated Order of Taking for conservation purposes dated June 4, 1975, recorded with the Registry at Book 8791 at Page 736, has the benefits and burdens of certain restrictions ("Restrictions") which affect the Locus, which Restrictions are inconsistent with the Project and the Conservation Restriction, and have been determined to be surplus by the Environment Department of the City of Boston in a memorandum to the Public Facilities Department dated May 30, 1989; now therefore, be it

Ordered, That the Restrictions are hereby found to be surplus within the meaning of St. 1909, c.486 Section 31B (as appearing in St. 1966, c. 642, Section 12) and the care, custody, management and control thereof are hereby transferred to the Public Facilities Commission.

Referred to the Committee on Planning and Development.

ORDER AUTHORIZING CONSERVATION COMMISSION TO RECEIVE CONSERVATION RESTRICTION ON LAND AT 44 ALLANDALE STREET ON WEST ROXBURY/JAMAICA PLAIN LINE

The following received:

City of Boston
Office of the Mayor

November 21, 1989.

To the City Council.

Dear Councillors:

I transmit herewith for your approval an order approving the receipt of a Conservation Restriction on land in West Roxbury at 44 Allandale Street.

I urge your Honorable Body to pass this order as expeditiously as possible to allow completion of the important housing project on the same property.

Respectfully,

Raymond L. Flynn,
Mayor of Boston.

Whereas, The City of Boston recognizes the need for preservation of publicly accessible open space to enhance the quality of life in the City; and

Whereas, The Faulkner Corporation has agreed to convey to the City of Boston through the Conservation Commission, a Conservation Restriction on land at 44 Allandale Street on the West Roxbury/Jamaica Plain line in Boston; now, therefore, be it

Ordered, That in accordance with the provisions of G. L. c.40, s.8C, the Conservation Commission be, and hereby is, authorized to receive in the name of

the City of Boston said Conservation Restriction.

Referred to the Committee on Planning and Development.

MAYOR THANKS BUSINESS COMMUNITY

On May 17 Mayor Raymond L. Flynn hosted a gathering of prominent Boston business men and women actively involved in supporting neighborhood adult literacy initiatives. Most of the attendees made \$1,000 contribution to the Boston Adult Literacy Fund (BALF) which plays a crucial role in helping to enliven a city-wide adult literacy effort by raising private sector funds for 30 neighborhood based programs.

Addressing the gathering of neighborhood literacy providers and business people, Mayor Flynn thanked the contributors and commended the work of the providers, but encouraged more citywide action. "Everyone comes to us with a lot of problems and often the first step to providing residents with jobs and economic opportunities is to provide them with literacy skills. We want to continue to provide access to economic empowerment, hope and opportunity and the key is literacy. We want Boston to continue to be the most creative and innovative city in America dealing with the issue of adult literacy."

Don Gillis, Director of the city's Economic Development and Industrial Corporation (EDIC) emphasized that the state's labor market and emerging industries demand an increasingly high level of skill from participants. "Mayor Flynn is committed to giving Boston residents the opportunity to get the skills and training they need to get good jobs. Residents seeking employment need to have occupational training, but they cannot access appropriate training programs without basic literacy skills. Literacy is the first step toward economic self-sufficiency."

Mayor Raymond L. Flynn hosted a reception to thank members of the Boston business community for contributions to the Boston Adult Literacy Fund and to thank neighborhood based literacy providers for their work. Among the attendees at the event were from left to right Joanne Appleton Arnaud, Executive Director of the Boston Adult Literacy Fund (BALF); Kathleen O'Connell, Director of Adult Learning Programs at the East Boston Harborside Community School; Jean-Marc Baptiste, Director of Adult Literacy Programs at the Haitian Multi-Service Center; (back row) William O. Taylor, publisher, Boston Globe and President of Boston Adult Literacy Fund Board of Directors; Kenneth Rossano, Director of Development for Bank of Boston and member of (BALF) Board. (Front) Barbara Garner, Director of Adult Literacy Programs for Mayor Flynn's Office of Jobs and Community Services; Mayor Raymond L. Flynn; Steve Hanley, Director of W.A.I.T.T. House; Terri Brown, Director of Adult Learner Program at the Jamiaca Plain Community School; and Don Gillis, Director of the city's Economic Development and Industrial Corporation.

In Boston more than 55,000 adults over the age of 25 have less than an eighth-grade education and their literacy levels are probably much lower, according to adult literacy teachers. Thousands more need English as a Second Language training to enter the workforce and achieve economic independence. Traditionally public sector funding has been insufficient to combat the problem of adult literacy.

"The Boston Adult Literacy Fund raises awareness among Boston's

business community about the city's adult education crisis and the crippling impacts this crisis has in the personal lives of those affected, as well as on the city's economy," said Nancy Snyder, newly appointed Director of the Mayor's Office of Jobs and Community Services whose office administers the Boston Adult Literacy Initiative.

duced several neighborhood based literacy providers who explained how they have used BALF funds.

Kathleen O'Connell, Director of Adult Literacy Programs at the Harborside Community School in East Boston, got a grant from the Boston Adult Literacy Fund and started an advanced English class. "Twenty-two percent of East Boston residents need English classes. With the support of BALF we've been able to serve 25-30 more people this year."

Steve Hanley, Director of W.A.I.T.T. House in Roxbury (We're All in This Together), said "Our BALF grant has allowed us to maintain full-time services. Otherwise we'd be offering a part-time solution to a full-time problem."

Terri Brown, Director of Adult Learning Program at the Jamaica Plain Community School, said "We were in a grave situation this year in that we had no funding available for childcare. Many of our participants could not come to the program without childcare services." Because of our BALF grant we have a part-time childcare provider worker and a mentor to help her develop ideas. We've served 25 parents so far this year."

Jean-Marc Baptiste, Director of Adult Learning at the Haitian Multi-Service Center in Roxbury, said "Your BALF grant helps us provide services to almost 500 people at the center who need adult literacy and English as a Second Language classes. We hope that in the future, people like you will continue to see the necessity of these programs."

Joanne Appleton Arnaud, Executive Director of the BALF pointed out that the goal of the BALF is to develop a permanent source of funding for adult literacy programs. "In the first year of the program we've raised \$141,740 distributed to 19 literacy programs in Boston neighborhoods."

INQUILINOS BORICUAS EN ACCION IN THE SOUTH END, BOSTON AGING CONCERNS — YOUNG AND OLD UNITED IN THE BACK BAY, AND FENWAY COMMUNITY DEVELOPMENT CORPORATION PROVIDE AFFORDABLE HOUSING TO LOCAL RESIDENTS THROUGH UNITED WAY OF MASSACHUSETTS BAY'S HOUSING INITIATIVE

By Tony Ferullo

Pick up a map of the United States, point to a spot on it, and you're sure to find an area where people are hunting for a place to live — including the South End, Back Bay and Fenway sections of Boston. For many folks, their search is for someplace they can enjoy and feel proud, someplace they can be comfortable and raise a family, someplace they can own and call home.

The dilemma facing these people is the limited supply of affordable housing. It is clearly a problem of major concern. Millions of low-income families are living in unsafe housing units where the rent often exceeds half their income.

Despite this bleak picture, however, a

ray of sunshine has appeared locally, during the last few years in the form of the United Way of Massachusetts Bay's Housing Initiative.

"I feel this is a very exciting time for the United Way and the community," said Ricardo A. Millett, Senior Vice-President of Resource Distribution at the United Way of Massachusetts Bay, and a member of United Way's Housing Advisory Committee. "In a time when we're faced with a fiscal crisis, we all have to realize that housing is a major priority and an investment in our future."

Through its Housing Initiative, the United Way is contributing \$1.8 million over a five-year period (1987-92) to Boston's Neighborhood Development Support Collaborative (NDSC) — marking the first time any United Way has been involved in a venture to support affordable housing. The goal of United Way's Housing Initiative is to provide affordable housing to people living in a number of inner-city communities in the Boston area.

Locally, United Way's Housing Initiative has played a major role in the success of Inquilinos Boricuas en Accion in the South End, and Boston Aging Concerns — Young and Old United in the Back Bay, both United Way of Massachusetts Bay affiliates, and Fenway Community Development Corporation.

To date, Inquilinos Boricuas en Accion has begun construction of 27 units, while another 71 units are in the planning stages. Also at this time, Boston Aging Concerns — Young and Old United has completed construction in 49 units (16 of which comes from the renovation of an old brownstone lodging house), while an additional 44 units are in the planning stages.

"United Way's Housing Initiative speaks for itself," said Clara Garcia, Executive Director of Inquilinos Boricuas en Accion. "The credit should go to all the foundations that took part in funding this program. They recognized the tremendous need for affordable housing."

"If you want people to follow the American Dream, you have to create

opportunities for them and that's what this Initiative has done. It has also helped us to make our community a more stable place to live."

Said Joanne Potter, Coordinator of Housing Development at Boston Aging Concerns — Young and Old United, "People are beginning to feel the strain of affordable housing everywhere. Community interest is making this a citywide priority, as well it should be."

"The encouraging part about United Way's Housing Initiative is that it enables us to preserve some affordable housing and keep elderly and modest-income people in the neighborhood."

Some of the types of housing that have been created thus far by Fenway Community Development Corporation include various units serving elderly and handicapped individuals, as well as people with AIDS.

"Through United Way funding, we've been able to create these unique projects which reflects the diversity of the Fenway neighborhood and the need for affordable housing," said Mat Thall, Executive Director of Fenway Community Development Corporation.

"Although housing is one of the main problems facing low-income people today, our goal is to continue to develop more affordable housing projects as best as we can."

The total results of United Way's Housing Initiative, in partnership with the NDSC and the area Community Development Corporations (CDCs), have been outstanding:

- 706 units of housing have been rehabilitated or newly built;
- 616 units of housing are under construction;
- 569 units of housing are in the planning stages.

In addition to the United Way's \$1.8 million contribution, other funding partners supporting the NDSC include: the Ford Foundation, pledging \$1.5 million; the Boston Foundation, \$500,000; the Boston Globe Foundation, the Hyams Foundation, and the Local Initiatives Support Corporation, \$150,000 each; and the Riley Foundation, and the Clipper Ship Foundation,

\$50,000 apiece. This \$4.5 million total allows the Neighborhood Development Support Collaborative to effectively work with the area CDCs to support the production of affordable housing.

In fact, the Neighborhood Development Support Collaborative's success in attracting support prompted the Ford Foundation to give a grant to the United Way of America to encourage United Ways in five cities (Chicago, Illinois; Houston, Texas; Pontiac, Michigan; Rochester, New York; and York County, Pennsylvania) to follow the Boston model.

In a society torn apart by drugs, violence and corruption, the work being done by these CDCs, in partnership with organizations like the United Way, certainly brings a community closer together.

"Our mission at the United Way is to help increase the organized capacity of people to care for one another," said Millett. "And this also means to help build up our community and make it a better place in which to live."

VIII. HIGH COMMENDATIONS

On February 10, 1990, at 0300 hours, a Boston Police Officer, while on patrol on Tremont Street, was stopped by a group of people that stated two men in a blue Pontiac pulled a gun on them. The officer located the vehicle on Tremont Street and gave pursuit. The suspects crashed their car into parked vehicles on Tremont Street near Engine Company 22's quarters. A violent struggle ensued. The police officer was punched and kicked by one of the suspects. The second suspect came to his friend's aid. The police officer was now fighting with both suspects, one of whom had a gun. The second suspect was found to have possession of a knife.

Fire Fighter Patrick L. McDonough and Fire Fighter Joe E. Montoya, both on duty at Engine Company 22's quarters, 700 Tremont Street, District 4, heard the commotion outside. They observed a group of people around a crashed vehicle with a police officer being attacked by what appeared to be three individuals, while other spectators were yelling and screaming. Fire Fighters McDonough and Montoya, without regard for their own safety, immediately went to the aid of the police officer. They grappled and held on to two other individuals, one being a victim of the crash attempting to attack the suspect, but interfering with the police officer. The officer was able to handcuff the first suspect. Fire Fighters McDonough and Montoya helped to control the suspects until the arrival of additional police officers.

Because Fire Fighters Patrick L. McDonough and Joe E. Montoya of Engine Company 22 performed this action at extreme personal risk, reflecting credit upon themselves and the Boston Fire Department, the Fire Commissioner is pleased to highly commend Fire Fighters Patrick L. McDonough and Joe E. Montoya of Engine Company 22 and refers their case to the Board of Merit for further consideration.

On March 5, 1990, at 1345 hours, box 3356 was struck for a building fire at 56 Columbia Road, District 7, for which 3 alarms were sounded.

Heavy smoke was showing from the front of the building upon the arrival of Engine Company 24 and Ladder Company 23. With a report of children trapped inside and while Engine Company 24 was advancing a line to the first floor with heavy fire showing on the side of the building and before ventilation was performed, Fire Captain Paul V. Farren, Headquarters (detailed to Ladder Company 23), entered the fire room via the right side of the front porch. While searching the room, Fire Captain Farren located a child in a crib, placed his facepiece on the child's face and while proceeding to exit, became disoriented due to intense heat and smoke. Fire

Fighter Robert H. Lindsay of Ladder Company 23 entered the same window and assisted Captain Farren in handing the child to Fire Fighter Eric A. Singleton of Engine Company 41, who was off duty. (Commended in General Order No. 11, March 23, 1990.)

Because Fire Captain Paul V. Farren performed this act under extreme personal risk to himself, before proper ventilation had been performed or lines of hose in place, the Fire Commissioner is pleased to highly commend Fire Captain Paul V. Farren, Headquarters (detailed to Ladder Company 23) and refers his case to the Board of Merit for further consideration.

On May 16, 1990, while Ladder Company 10 was operating as a fire detail, Box 6-2255, incident number 15869, Fire Fighter Scott J. Malone, while at the right side of the fire building, observed two Boston Police Officers in foot pursuit of a male person. Without hesitation, Fire Fighter Malone jumped a five foot fence equipped with barbed wire, receiving a laceration to his hand and dropping ten feet to the ground where he tackled and subdued the fleeing person until the arrival of the police in pursuit. The suspect was wanted for a series of crimes in the area and placed under arrest.

Because Fire Fighter Malone performed this act in the presence of many spectators, reflecting credit upon himself and the Boston Fire Department, while at great risk to himself and without knowledge of the suspect having a weapon in his possession, the Fire Commissioner is pleased to highly commend Fire Fighter Scott J. Malone of Ladder Company 10 and refers his case to the Board of Merit for further consideration.

IX. HAZARDOUS BUILDINGS

The building located at 130 Brooks Street, East Boston, District 1, is in hazardous condition. The front stairway treads leading into the building, and stair railings throughout are missing. There are holes in the floor leading up the back stairway. The front and rear of building is open to trespassers. Bricks are falling off the chimney and electrical wiring is exposed.

The building located at 5 Marion Street, East Boston, District 1, is in hazardous condition. The rear porch on the first floor has a cracked support beam causing entire rear porch to pull away from the building.

The building located at 60 Hemenway Street, District 5, is in hazardous condition. The roof and rear wall are missing. The first floor has open joists with no flooring.

Extreme caution must be taken at all times during fire fighting operations at these locations. These buildings have been posted.

MUNICIPAL BUILDING POLICE A PROGRAM THAT MAKES CENTS FOR BOSTON

The City of Boston Municipal Building Police Program is a non-traditional Police Agency that has proven to be an effective counter measure to incidents of vandalism, arson and theft in public buildings. The program is administered by the City of Boston Public Facilities Department and was designed to address issues such as Risk Analysis, Loss Prevention and Physical Security.

Essentially the program began in 1974 when the City of Boston purchased a JC/80 Computer System to manage Building Automation Systems and monitor security violations in public buildings. Prior to this, the city utilized private alarm companies to monitor various locations and the Boston Police were called to respond. However, as the system grew problems developed such as access to locations, key control and a high rate of false alarms, and the Boston Police, as well as other city agencies felt it would be more appropriate to utilize the services of a contract security force to respond to alarm conditions rather than tie up Boston Police Units on nuisance alarms.

During the period of 1976 to 1979 the number of city buildings with Intrusion Alarm Systems increased to one hundred and fifty and the cost for security contract had increased dramatically, yet the city had very little data to evaluate the cost effectiveness of the program. Therefore in 1979 the Director of Public Facilities appointed Bob Francis as Chief of Security to co-ordinate and evaluate the program and Detective Ken Ellis was assigned by the Boston Police Department to monitor the performance of private security personnel. The results of their evaluation is as follows:

- There was a 300% turnover in personnel with the private security contractor.
- Response time to alarm conditions was in most cases

over thirty minutes due to the fact security officers were not city residents and were unfamiliar with the neighborhoods of the city.

- Private security companies failed to train personnel as required in the City Contract.
- Private contractors failed to comply with the contract in licensing personnel as Special Officers.
- Employee absenteeism was excessive leaving many sectors without proper coverage.
- Personnel assigned by the contractors were in fact security risks in themselves.
- Supervision was non-existent.
- The average number of arrests were under ten each year.
- Maintenance and repairs to Alarm Systems were not co-ordinated through a central agency.

As a result of these findings, as well as knowledge of the fact that numerous city buildings would soon be closing and the city was purchasing millions of dollars on high technology equipment for its buildings, the Public Facilities Department decided a more professional Police Unit was needed with the capability of maintaining and monitoring Alarm Systems and the ability to respond rapidly to alarm conditions. Therefore in July, 1979, the City of Boston eliminated the use of Contract Security and established a proprietary Security Force known as the Municipal Building Police.

The Municipal Building Police Program has been credited with reducing losses in public buildings by over 60% since 1979 and is responsible for security in over three hundred (300) buildings. The Boston School Department has stated the program has saved the School Department close to a million dollars a year in damages but most importantly, the program aided the School Department in carrying out its educational responsibilities without disruption. The success of the program can be directly attributed to the manner in which the Public Facilities Department took control of the security operation. Through effective crime analysis, directed Police Patrols assigned to high risk area; alarm problems that in the past took weeks to address were now corrected immediately; applicants for employment were thoroughly screened before they were hired and are required to an Associates Degree in Criminal Justice or successfully complete a fourteen week Police Academy Program at the Massachusetts Criminal Justice Training Council and strong emphasis was placed on co-ordinating services with other public safety agencies, primarily, the Department of Safety Services of the Boston School Department.

The Municipal Police Program is unique in that it not only protects the assets of the City of Boston, but the cost of the program is minimal compared to the millions of dollars it saves the City of Boston on security and related programs. For example:

- The Municipal Police are responsible for protecting over four hundred (400) pieces of property and are credited with reducing vandalism, arson and theft in city buildings by over one million dollars annually.
- City agencies that in the past experienced major problems with contract security now contract with the Municipal Police for over a half million dollars annually.
- The Municipal Police Communications Division manages the Heating, Ventilation and Air Conditioning in twelve of the larger buildings in the City of Boston and has been successful in reducing energy costs in these buildings by over \$700,000.00 annually.
- The Municipal Police Communications Division monitors over fifty (50) buildings for low temperature alarm, boiler flame-outs, pump alarms, etc., and has saved over one hundred thousand dollars (\$100,000.00) annually in deferred damages and overtime costs.
- The thirty-seven (37) ballparks have their lighting

controlled by the Municipal Police Communications Division to eliminate excessive use of electricity and overtime costs and has saved the City in excess of fifty-seven thousand (\$57,000.00) dollars annually.

- The Municipal Police play a key role in protecting vacant and abandoned city properties until such time as they are developed and placed back on the tax rolls of the City of Boston. Vacant schools, police and fire stations and abandoned properties have been recycled into affordable housing contributing to the economic rebirth of the neighborhoods of Boston.
- The Municipal Police Communications Division have developed the first Cable Based Security Network in the country, thus saving city agencies approximately two hundred thousand dollars annually on communication costs by eliminating the use of leased telephone lines for security systems.
- The Municipal Police generate over one hundred thousand dollars annually in Parking Revenues for the City of Boston by strict enforcement of parking violations for parking violators on city properties.
- The Investigative Division of the Municipal Police is responsible for protecting over seven million dollars in meter revenues, as well as providing for the safety and security of Enforcement Officers of the Transportation Department.
- The Municipal Police established a proprietary Alarm Maintenance and Installation Division which will save the City of Boston in excess of one hundred thousand dollars annually for costs related to leasing systems from private security contractors.

The Municipal Police Program has developed into a cost effective program by co-ordinating the alarm maintenance monitoring of alarm systems and providing a highly trained Response Unit for security violations in city buildings. Through the use of non-traditional police, we have enabled the Boston Police Department to deploy their personnel to deal with more serious crimes.

December 11, 1989.

To the City Council.

Dear Councillors:

I transmit herewith for your approval an order to approve the issuance of industrial revenue bonds in a principal amount not to exceed \$7,635,000. The Boston Industrial Development Financing Authority (BIDFA)'s Board of Directors, acting pursuant to the provisions of Chapter 40D of the Massachusetts General Laws, adopted a favorable resolution with respect to this industrial development project.

I urge your Honorable Body to pass this order as expeditiously as possible so that this employer may implement its business plans as described.

Respectfully,

Raymond L. Flynn,
Mayor of Boston.

Whereas, By an Order passed by the City Council (the "City Council") of the City of Boston, Massachusetts (the "City") on October 25, 1989 and approved by the Mayor of the City on November 13, 1989, the City Council approved the following project (the "Project") constituting a "project" as such term is defined in Massachusetts General Laws, Chapter 40D, as amended (the "Act") proposed by and to be owned and used by St. Joseph Nursing Care Center, Inc. (the "Company," which word includes in this Order any parent, subsidiary

or other affiliate of St. Joseph Nursing Center, Inc.), the estimated cost of the Project in the amount of \$7,930,518 and the financing of the Project by revenue bonds ("Bonds") to be issued by the City, acting by and through its Industrial Development Financing Authority (the "Authority") in a principal amount not to exceed \$7,130,000:

purchase of the land and building located at 321 Centre Street, Dorchester, Massachusetts; renovation of such building to provide a nursing home with approximately 77 Level II beds and approximately 41 Level III beds; and purchase of equipment for use by the nursing home in its provision of nursing home services;

Whereas, After further planning of the Project and the financing thereof the Company estimates that the cost of the Project will be \$8,435,000, of which not more than \$7,635,000 is proposed by the Company to be paid out of the proceeds of the Bonds, and the Company has indicated its willingness to finance any costs of the Project in excess of \$7,635,000 other than by the issuance of the Bonds, and it appears that the cost of the Project or such portion thereof as is not financed through other sources may be financed through the issuance of the Bonds; and

Whereas, The Company has expressed its willingness to make payments sufficient to (i) pay the principal of and interest on the Bonds, (ii) pay the fees of the Authority in connection with the Bonds and the reasonable expenses of the City and the Authority incurred in connection with the Bonds, and (iii) reimburse the City and the Authority for or indemnify the City and the Authority against any reasonable expenses incurred in connection with the Bonds in the event that the issuance and sale of the Bonds are not accomplished as contemplated; and

Whereas, Upon completion of the Project as contemplated, the Company will provide permanent full or part time employment for approximately one hundred fifty (150) persons (amounting to approximately one hundred (100) full time equivalents) at the Project within the next two years and thereby contribute to the alleviation of unemployment in the City, provide security against future unemployment in the City and benefit the economy of the City and The Commonwealth of Massachusetts; and

Whereas, The Company has undertaken to cooperate with public and community agencies engaged in manpower recruitment and training to pursue as a goal, to the extent consistent with state and federal law, the furnishing of at least 50 percent of new jobs and new hires at the Project to residents of the City, at least 25 percent of new jobs or new hires to minorities and at least 25 percent of new jobs or new hires to women; and

Whereas, The Company hereby pledges to cooperate with public and community agencies engaged in fostering minority and women owned business enterprises and hereby also pledges to pursue as a goal the placement of contracts for goods and services with enterprises based in the City; and

Whereas, The Authority has adopted resolutions approving the Project and authorizing the issuance of Bonds in the principal amount determined by the officer of the Authority executing the Bonds to finance the portion of the cost of the Project not financed by other sources, the issuances of such Bonds being subject to the making of a loan agreement and other agreements with the Company pursuant to the Act and to certain other conditions; and

Whereas, The City, by adopting this Order or by taking other action in connection with the Project or the Bonds, or the Authority does not and cannot provide any assurance that the Project or the Company is financially viable or sound, that amounts owing on the Bonds will be paid, that any collateral which may be pledged to secure the Bonds would be sufficient to repay the holders of the Bonds in the event of default and foreclosure, or that

interest on the Bonds is or will continue to be excludable from gross income for federal income tax purposes or exempt from Massachusetts income taxation; and neither the Company nor any prospective purchaser of the Bonds nor any other person shall rely upon the City or the Authority with respect to such matters; and

Whereas, The Authority has advised the City that notice of a public hearing relating to the proposed issuance of the Bonds in a principal amount of \$7,250,000 to finance the Project was published in *The Boston Globe* on April 3, 1989, and that such public hearing was held on April 19, 1989, all as described in such notice;

Now, Therefore, Be It Ordered: That the Project, its estimated cost in the amount of \$8,435,000 and the financing of the Project through the issuance of the Bonds pursuant to the Act, in a principal amount not to exceed \$7,635,000, be, and the same hereby are approved; provided, however, that the Bonds shall not constitute a general obligation or a pledge of the faith and credit of the City; and be it further

Ordered, That it is intended that this Order shall constitute the approval required by Section 147(f) of the Internal Revenue Code of 1986, as amended, and it is also the intent of this Council that the approval granted by this Order shall serve as an inducement for the Company to undertake the Project.

Referred to the Committee on Planning and Development.

SUPPORTING LEGISLATION DECLARING MASSACHUSETTS A MULTI-LINGUAL, MULTICULTURAL STATE AND URGING SENATE AND HOUSE TO AFFIRM PROMOTION OF UNITY AND OPPORTUNITY IN CITY AND STATE

Couns. BOLLING and SCONDRAS offered the following:

Whereas, In 1980 the United States Census reported that 36.4 percent of the City of Boston's population was of Black, American Indian, Eskimo, Aleut, Asian, Pacific Islander, Hispanic or Spanish origin; and

Whereas, Diverse ethnic, cultural and linguistic communities have contributed to the vitality, distinction, and development of the City of Boston; and

Coun. SCONDRAS offered the following:

Whereas, Boston is in need of federal funds for a host of services, from closing the \$25 million gap in building of a new hospital to finding a solution to the issue of homelessness; and

Whereas, One million dollars a day of taxes paid by residents of Boston and throughout the United States is spent to support a right wing regime in El Salvador responsible for the deaths of 70,000 civilians, among them Archbishop Romero and six Jesuit priests; and

Whereas, Senator John Kerry, Congressman Joseph Kennedy, Attorney General James Shannon, and many others have called for the boycott of Salvadoran coffee; and

Whereas, Such a boycott will help tremendously to end the conflict in El Salvador and is supported by the union movement in El Salvador and unions located in Boston; Now Therefore, Be It

Ordered, That Departments in the City of Boston are prohibited from buying coffee in violation of the Boycott of Salvadoran Coffee, including Maxwell House, Chase and Sanborn, Hills Brothers, Nescafe, Taster's Choice, and Folgers; and Be It Further

Whereas, Since March 4, 1989, the maintenance and repair of aircraft at Eastern has been done by unskilled, non-union grade labor, therefore causing grave concerns regarding the safety of the public; and

Whereas, The UMWA has been on strike against Pittston since April 5, 1989; and

Whereas, Eastern Airlines has not been willing to negotiate in a substantive way or in good faith; and

Whereas, The Pittston company has been forced by the federal government into mediation; and

REPORT ON ORDINANCE REQUIRING LENDING INFORMATION OF MUNICIPAL DEPOSITORIES

Coun. HENNIGAN CASEY, on behalf of the Committee on Government Operations, submitted the following:

Report on Docket No. 0915, ordinance requiring lending information of municipal depositories (referred June 21) recommending passage of the ordinance in the following new draft:

City of Boston

In the Year Nineteen Hundred and Eighty-nine
An Ordinance Requiring Lending Information of Municipal Depositories.

Be it ordained by the City Council of Boston, in accordance with the provisions of Massachusetts General Laws Chapter 43B, Section 13, and any other applicable law, as follows:

Whereas, The drive to eliminate redlining, the practice of systematically denying credit on the basis of the geographic location of the borrower or property to be borrowed, began more than twenty-five years ago; and

Whereas, Even though the Community Reinvestment Act of 1977 requires that banks meet the credit needs of the communities in which they are located, evidence suggests the practice continues to exist; and

Whereas, A preliminary report issued by the Federal Reserve Bank of Boston suggested that low/moderate income neighborhoods receive a disproportionately small amount of loans compared to other city neighborhoods and additionally that there may be a racial pattern of lending by area banks; and

Whereas, Denying loans and resources to certain groups and particular neighborhoods only serves to stifle economic mobility for many Boston residents; and

Whereas, The city invests approximately \$400 million of its funds in Boston banks; and

Whereas, The city should leverage its resources to promote equitable distribution of financial resources in every neighborhood; and

Whereas, Municipal government should therefore conduct business only with those banks who are responsible in servicing all of Boston's communities;

Whereas, This ordinance would allow the city to evaluate the lending performance of banks who wish to receive municipal investment funds; Therefore, be it

Ordained, By the City Council of Boston, in accordance with the provisions of Massachusetts General Laws chapter 43B, section 13, and any other applicable law, as follows:

Section One: Definitions

(a) Applicant shall mean any person who applies for a mortgage loan, commercial loan, home equity, consumer, home improvement or student loan as defined in this section, whether or not the loan is granted.

(b) Census tract shall mean a standard statistical area as established by the United States Bureau of Census.

MEMORANDUM

TO: Chief Executive Officers
County Houses of Correction

FROM: David F. Cronin
Associate Commissioner
Division of Occupational Education

SUBJECT: Statement of Assurances for
State and Federal Funds

DATE: October 2, 1989

Federal regulations and Massachusetts Executive Order No. 227 requires that grant recipients — e.g., houses of correction, community colleges, school districts, collaboratives, and Chapter 766 approved private schools — file a statement of assurances with each grant application. In addition, Massachusetts Executive Order No. 227 requires that state agencies disbursing grants assure that grant recipients undertake affirmative action programs subject to the approval of the Massachusetts Commission Against Discrimination. In an effort to reduce paperwork, the Department of Education is requesting that houses of correction and other grant recipients annually file a combined statement of assurances, which covers virtually all grants, rather than file assurances with each grant application. Enclosed is a copy of the Statement of Assurances and three copies of the Certification Page. Assurances under Section A apply to all grant recipients; those in Sections B through F apply to specific programs as appropriate.

This year, based on Executive Order 12549 and regulations published in the Federal Register on May 26, 1988 beginning on page 19161, we also are required by the U.S. Department of Education to obtain separate certifications of compliance with government-wide debarment and suspension procedures for lower tier transactions, i.e., subgrants from the Massachusetts Department of Education to local recipients. To comply with this requirement we have enclosed, and you must certify compliance by signing, ED Form GCS-009, "Certification Regarding, Debarment, Suspension, Ineligibility, and Voluntary Exclusion — Lower Tier Covered Transaction." Please note that this is in addition to the combined "Statement of Assurances."

These forms must be signed by the Chief Executive Officer and Chairperson of the County Commissioners. We require that the County Commissioners vote to authorize signature of the assurances. Also, instead of requesting that you submit a copy of the minutes from the meeting at which authorization is voted, we ask that the date of such meeting be supplied and that the Chief Executive Officer and County Commissioners Chairperson certify the authorization was received by vote of the County Commissioners.

Please obtain the County Commissioners authorization, provide original signatures on two copies of the Certification Page, and return two copies of the Certification Page only, as well as one original of the previously mentioned ED Form GCS-009, as soon as possible to:

Pamela S. Barry, Director, Bureau of Postsecondary Occupational-Technical Education.

Thank you in advance for your cooperation. If you have any questions about these assurances, please call Pamela Barry at 617/770-7388.

Passed under suspension of the rules.

CONSENT AGENDA

The Chair moved adoption of a Consent Agenda in which the following-named Councillors offered resolutions honoring individuals or organizations as set forth after each Councillor's name:

Councillor Menino: Genesis Arts Project.

Councillor Travaglini: Miss Massachusetts USA, Lauren Murphy.

Councillor Yancey: Inroads/Boston Inc.

On motion of Councillor Iannella, Rule 11 was suspended in order to add the following matters to the Consent Agenda:

Councillor Salerno: Alfred B. Tutela; Mary M. Russo.

The matters contained within the Consent Agenda were severally adopted.

NEXT MEETING

Coun. KELLY moved that when the Council meet again, it be on Monday, December 18, 1989, at 1 p.m.

The motion was carried.

Adjourned at 1:50 p.m., on motion of Councillor Kelly, to meet on Monday, December 18, 1989, at 1 p.m.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Acts of 1947.

NEW COUNTY HOUSE OF CORRECTION TOPPED OFF

May 15, 1990

William D. Stanton,
Managing Editor
City Record
Boston City Hall
Room 800
Boston, MA 02201
Dear Mr. Stanton:

On Tuesday, April 24, 1990 I administered the oath of office to sixteen (16) new Correction Officers at the site of the new Suffolk County House of Correction. I wanted the new Correction Officers to see first-hand how much progress is actually being made in constructing the prison which will replace the existing prison on Deer Island which opened in 1858. On Wednesday, May 9, 1990 I attended the beam signing/topping off ceremony at the new prison site. This traditional ceremony highlights the completion of the steel superstructure; and, I am now more confident than ever that the new Suffolk County House of Correction will be open and operational by the end of calendar year 1991.

Boston Penal Institutions Department staff have been working on the new prison project for the past three years; and, for the past year, I have worked almost full time on this effort. I have recently appointed a Boston Penal Institutions Department staff person to manage and coordinate the transition into the new prison. The transition will be a challenging and complex management exercise that will demand the full cooperation of many City of Boston departments. I know that the Boston Penal Institutions Department can count on you during the next eighteen (18) months to assist in this most important transition effort.

I am enclosing a brief fact sheet on the new Suffolk County House of Correction for your general information. Additionally, I am inviting you to visit and tour the new prison site at your convenience. Please feel free to call upon me if you have any questions or want to schedule a site visit.

As always, I appreciate your assistance.

Sincerely,
Robert G. Walsh, Jr.,
Commissioner.

CITY OF BOSTON PENAL INSTITUTIONS DEPARTMENT

The Essentials of Transition to the New Suffolk County House of Correction

1. Some of the buildings at the prison on Deer Island opened in 1858, while the replacement facility, currently under construction, is considered state-of-the-art by correctional experts. There are more things different about the new facility, than there are similarities with the old prison. For example:

- Existing facility's physical plant is antiquated, out-moded design consisting of multi-tiered linear cell blocks of up to 180 inmates; replacement facility based on modern cell block (podular housing) design containing nine semi-autonomous 32- and 64-bed housing units.
- Virtually all systems and operations of existing facility are manual; extensive use of modern electronic systems at replacement facility are designed for operations such as: interior and exterior surveillance and security; personnel access monitoring throughout physical plant; Management Information Systems; emergency response systems; record keeping systems; maintenance systems (HVAC; emergency power, elevators, etc.); and, telecommunications systems.
- Existing facility is scattered over 60 acres of land on Deer Island, which is essentially isolated and segregated from the general community; replacement facility is located on 7 acres of land in the center of Boston.
- Existing facility was designed for centralized operations; replacement facility is designed for decentralized operations utilizing modern Unit Management and Direct Supervision concepts.

- Existing facility consists of medium security, minimum security, and community release security housing units; in addition to all housing classifications at the existing facility, replacement facility also consists of Female Offender Unit, Mental Health Unit, and a Substance Abuse Treatment Unit.

2. New facility is scheduled to open early in Fiscal Year 1992. This means that virtually all planning and preparation for occupancy (including hiring and training of all new and current staff) must be accomplished in Fiscal Year 1991.

A requirement of the Federal Court Ordered Boston Harbor Cleanup is that the Suffolk County House of Correction be off Deer Island before the end of the first half of Fiscal Year 1992. In addition, under the terms of the *Handy, et al. v. Walsh, et al.* Final Settlement Agreement that is now pending before the Supreme Judicial Court of Massachusetts, the City is required to be totally out of the existing facility within no more than six months of completion of the new facility at South Cove.

PLEASE NOTE: That the deadline of NOON, Thursday of each week is eleven days in advance of publication

3. If a critical track in the transition schedule is delayed, the City may be faced with the reality of a completed facility, approved for occupancy, remaining vacant and dormant for the corresponding period of time that the transition process was delayed.

4. Staffing will increase by 200 employees (from 350 now to 550 at the replacement facility). To maintain current staffing and hire and train the additional 200 new employees the Penal Institutions Department will:

- review at least 4,500 applications
- conduct at least 3,000 interviews
- provide a minimum of 78,000 hours of training

5. Uniformed personnel at the existing facility will each require, as a minimum, 80 hours of operational training at the replacement facility.

6. According to the Commonwealth of Massachusetts, Division of Capital Planning and Operations, the New Facility at South Cove is the single largest capital project undertaken by the State to date, and, represents the largest correctional institution built in Massachusetts in over 100 years. Once complete, taxpayers of Massachusetts will have 100 million dollar capital investment in the new Suffolk County House of Correction as well as a 5.8 million dollar investment in furnishings and equipment necessary to operate the new institution. Proper transition planning is essential to protect this investment.

7. The Penal Institutions Department will be operating three additional specialized housing/program units at the new institution; a Women's Unit; a Mental Health Unit, and, a Substance Abuse Treatment Unit. As corresponding programs are not currently in place at the existing facility, extensive planning for these areas of operation will be necessary.

8. For a period of up to 36 months, the Penal Institutions Department will be operating both the

existing and replacement facilities simultaneously as inmates and staff are phased in at the replacement facility. Advance planning and careful coordination is essential for the process to work efficiently and orderly, and in a way that ensures protection of the public.

9. The Penal Institutions Department will be utilizing a Transition Team to plan for and implement a comprehensive transition strategy. The Transition Team will be composed of a core group of new facility staff who are brought on with sufficient lead time to plan and implement operation of the new facility. Additionally, representatives from other City departments have been meeting with the Penal Institutions Department Transition Coordinator to implement segments of the transition strategy.

10. Prior to employees receiving operational training for the new institution, detailed operating procedures and post orders will need to be developed by Boston Penal Institutions Department management staff. It is anticipated that the creation of these documents will result in a comprehensive policy/procedures manual. Such documentation is required by state regulations, American Correctional Association standards, and is essential to the overall operation of the prison and the public safety.

11. Current operations at the existing facility are centralized. The replacement facility is designed for a centralized, Unit Management mode of operation. This dramatic change in operating philosophy will require extensive training to be effective.

12. The cost for operating an institution (not factoring in inflation) generally exceed the construction costs nine to fifteen fold. This means the operating cost over the next 30 years for the Suffolk County House of Correction will be 900 million to 1.5 billion dollars.

13. The fiscal crisis of the State and its impact on the City make the transition process all the more critical.

14. A carefully planned transition

must be executed in order to use limited resources wisely. If the transition is not done properly, a once-in-a-hundred-year opportunity will be lost to the City. The consequences of not planning and implementing a transition professionally may be:

- continued judicial intervention,
- not opening the facility on schedule,
- possible non-compliance with the Federal Court Order,
- non-compliance with state regulations,
- safety and welfare of staff, visitors and inmates will be difficult to guarantee,
- implementing principles of direct supervision and unit management will be hindered,
- not hiring staff in a timely manner.

A well planned and executed transition strategy will have cost effective, long-range positive impact on corrections and the criminal justice system in the City of Boston.

BPL RECEIVES MAJOR EQUIPMENT GRANT FROM DIGITAL EQUIPMENT CORP.

The Public Boston Library has announced the award of a major equipment grant by Digital Equipment Corporation towards the library's acquisition of a state-of-the-art VAX 6410 computer system. "Enhancing the capacity of our computer system has been a major goal of our capital program," said Arthur Curley, the BPL's director and librarian, "and this deeply appreciated award by Digital will enable the library to make major improvements in service to our many users."

The \$350,000 award by the Maynard-based computer manufacturer will also make it possible for the BPL to substantially expand the services it provides to more than 200 libraries throughout Massachusetts currently connected to the BPL through its cooperative cataloging program and the state's interlibrary loan network.

The new VAX system, which is

expected to be fully operational later this summer, will more than double the library's mainframe computer capacity and will allow for the merging of its four existing data bases as well as bringing on line the full Library of Congress Catalog data base of more than 3.5 million items.

Since its founding more than a century ago in 1854, the mission of the Boston Public Library to make information accessible to the general public has expanded enormously. Today the BPL is faced with a far greater mission of making its vast holdings accessible to patrons throughout the state and researchers the world over.

By its most recent count, the BPL has more than 23 million items housed in its facilities, including more than six million volumes, one million manuscripts, nearly four million microforms, nine million patents, and two million pictures, portraits, and prints, making it one of the country's largest research libraries. These impressive holdings present the library's patrons with the enormous task of determining exactly what the library has on a given subject and where the materials are located. The VAX 6410 system will provide the library with the capacity to meet this goal.

"STARTING YOUR OWN BUSINESS" SUBJECT OF BPL SEMINAR

What do a 23-year-old man operating a pushcart on Boston Common selling "Best of Boston" burritos, a 28-year-old woman who operates a bicycle touring company specializing in Italy, and a 23-year-old husband and wife team are operating a successful general contracting business have in common? They were all helped on their roads to success by "Youth Business Initiative," a youth entrepreneurship venture of Jobs for Youth—Boston, Inc.

On Tuesday, June 26th, Alan Attridge, education coordinator for Youth Business Initiative, will speak at the Boston Public Library in Co-

play Square on "Starting Your Own Business: Entrepreneurship as a Career Option." He will be joined by several young entrepreneurs who will tell how they learned to develop an idea into a business, market and promote their products and services, and organize and manage a successful enterprise.

If you live in Greater Boston, are 18-30 years of age, have a business idea and need financial assistance, you may be eligible to receive business training, start-up loans, and technical assistance to start your own business.

The seminar is free and open to the public and will be held in the BPL's Rabb Lecture Hall starting at 6 p.m.

In a related exhibit, the careers of eight young entrepreneurs who received assistance from Youth Business Initiative will be on display in the Boylston Street lobby from June 4th through 29th.

LOCAL MANUFACTURER, ECONOMIC DEVELOPMENT ARE FOCUS OF GROVE HALL TOUR

A local business, AB & W company, was heralded recently as a model for future economic development in Grove Hall as City and community leaders toured the area.

While touring future development sites in Grove Hall, Donald A. Gillis, Executive Director of Boston's Economic Development Agency/EDIC visited AB & W Company to congratulate owner Jim Miller and his approximately 30 workers on their nomination by the Ford Motor Company to receive a prestigious quality service rating.

AB & W is a minority-owned company, with nearly 100% minority employment, EDIC has worked with the company over the last three years on financing, business planning, employment and training. A metal fabricator primarily supplying

the automotive industry, AB & W has been nominated by the Ford Motor Company to be awarded a Q-1 status. The commendation, to be presented in Michigan in July, signifies that AB & W provides the highest level of quality and service.

"This company is an example of the type of business that we want to encourage which brings economic development to neighborhoods such as Grove Hall," commented Mayor Raymond L. Flynn. "Jobs and opportunity in our neighborhoods are the result when businesses and the City work together, and national recognition like this is the result of their hard work and commitment."

"We have known for a long time that this is a viable place for business," said Don Gillis. "now Detroit knows it too. We hope to be able to duplicate the success of AB & W by working in a similar way with other businesses and community organizations to bring economic opportunity to Grove Hall."

To finance an expansion, AB & W sought assistance from the Boston Local Development Corporation (BLDC), an affiliate of EDIC, which structured an \$802,000 loan package. It includes \$586,000 from the Boston Bank of Commerce, with the backing of the Small Business Administration, and \$216,000 from BLDC.

According to AB & W owner Jim Miller, "the package that BLDC put together allowed us to buy the equipment that we needed to do the quality work top corporations are looking for. This and the hard work and pride of my employees has brought us to where we are today."

Following the visit to AB & W, Gillis met with Grove Hall Community Development Corporation (CDC) members who took him to several area development sites with the aim of involving EDIC in supporting the economic resurgence of the neighborhood.

Walter Little, President of the Grove Hall CDC said, "After meeting with Don today we feel that the Administration is serious about the

economic development aspect of the safe neighborhood plan. It is important that we bring business and job assistance to Grove Hall and we look forward to working with EDIC to make this happen."

Boston's Economic Development Agency/EDIC provides business and employment assistance such as financing through low interest loans; real estate assistance through assessing needs and locating appropriate space; job training and employment assistance through an affiliate — the Boston Technical Center; advising companies on lease or sale issues; and assisting with the Zoning Board of Appeal and permitting process. If you or your company needs employment or business assistance call Boston's Economic Development Agency at 725-EDIC.

RELIEF BUT NO RELEASE FROM ARTHRITIS

Arthritis is defined as a group of diseases that cause joints and connecting tissue to become painful and sometimes inflamed. It is the number one crippling disease — one in seven Americans have some form of arthritis and over 31.6 million require medical care.

Arthritis can attack anyone at any age and while it cannot be cured, quick diagnosis and treatment can minimize pain and crippling deformities. Arthritis is detected through a series of tests such as blood tests, x-rays, urine, joint tissue biopsies and analysis of joint fluid. Once a positive result has been obtained, the physician will set up an individual treatment plan which may include pain relieving medication, physical therapy, exercise and rest.

Arthritis never disappears, although symptoms may come and go. If neglected they can suddenly return. The following is a list of early warning signs which can signal the onset of arthritis:

- Persistent pain and stiffness upon rising
- Pain or tenderness in one or more joints

- Swelling in one or more joints
- Reoccurrence of the above symptoms, especially when they involve more than one joint
- Pain or stiffness in the neck, lower back, knees, and other joints
- Tingling sensation in the fingers, hands, or feet
- Unexplained weight loss

There are over 100 different arthritic and rheumatic diseases, but some of the more common are rheumatoid arthritis, osteoarthritis, and gout. Rheumatoid arthritis is the more disabling and destructive. It affects joints, muscles, blood vessels, the heart, lungs and eyes. If left untreated, it can cripple and disable. Rheumatoid arthritis affects three times as many women and usually strikes between the ages of 25 and 50. The first signs of this progressive disease are fatigue, muscular stiffness, loss of appetite and weight. Sometimes these symptoms are accompanied by muscle spasms and fever. Although scientists have not discovered the cause, they believe that it is caused by arthritis infection and auto-allergy (which occurs when the body produces antibodies against its own joints and tissues). Methods of treatment include medication, physical therapy, and orthopedic surgery.

Osteoarthritis is the most common form, found in a varying degree in most people over the age of 60. Hips, knees, spine, fingers and toes are the most commonly affected joints. The disease results from injury or wear and tear on joints. Symptoms include localized pain and stiffness. The appearance of swollen "bony" joints (especially in the fingers) is also a sign. Treatment ranges from drugs to physical therapy to surgery.

Gout is the easiest form of arthritis to detect and treat, often starting in the big toe, but frequently affecting other joints in the feet, hands, knees, and elbows. Gout is caused by an excess of uric acid in the body which forms needle-like crystals in joints, leading to severe inflammation and pain.

Arthritis is a chronic disease which needs to be treated by a physician. There is no "instant relief" of arthritis. The only effective treatments are long term. Although symptoms can be relieved, it takes time and patience. Contrary to popular belief, there is no medical evidence that warm weather relieves arthritic symptoms.

So protect yourself against arthritis — remember the warning signs and get prompt professional treatment as soon as symptoms appear.

The African Meeting House. The key-stone of the black community and oldest black church building standing in the United States is the start of the trail that celebrates the history of Boston's black community between 1800 and 1900. Located at 8 Smith Court.

The Smith Court Residences. Here is an example of typical homes occupied by black Bostonians throughout the 19th century. These brick residences were built to satisfy the need for inexpensive housing for the increasing population. Located at 3, 5, 7, 7A and 10 Smith Court.

Abiel Smith School. This school was built in 1834 to educate black grammar school students from all over the city. Although planned with good intentions, black leaders began a boycott a few years after its construction in protest of segregated education. Located at 46 Joy Street.

TRANSPORTATION DEPARTMENT

Request for Proposals for Development of
Transportation Strategies for the South
End, April 1990.

The City of Boston, acting by and through its Transportation Department, Policy & Planning

Division, invites proposals for qualified consultants to provide transportation planning and traffic engineering analyses and services in order to develop transportation strategies in the South End area of Boston. A primary focus of the analyses will be the development of the transportation component of a South End Master Plan.

Other pertinent information will be available in the Office of the Deputy Commissioner of Transportation, Room 721, City Hall, Boston, MA 02201. Contact Daniel Pino at 725-3070.

Transportation issues in the South End are a great concern, particularly as they relate to current and proposed developments. Projects in planning stages such as the Prudential Center expansion, Boston City Hospital/University Hospital area, and the Central Artery/Third Harbor Tunnel Project will have an impact on the area's parking supply, traffic conditions and transit services. These issues must be dealt with in the context of a primarily residential neighborhood whose street system is designed to discourage non-residential (e.g., commercial and through) traffic from the residential area.

The completion of the Work Plan is a project that the City is committed to pursuing on a priority basis. A number of actions have already been taken, including identification of existing traffic regulations and meeting with community leaders.

To develop and implement the type of program envisioned here will take a true partnership among residential groups, merchants, employers, developers and various City and State agencies, to provide broad enough support to ensure that a specific set of actions emerge from the effort and are implemented. It will be the function of the Consultant to assist in the development of issues for the South End, and provide the database and framework for the process. The Consultant will also facilitate the interaction of the various groups, and provide the impetus for the implementation of desired actions.

SELECTION CRITERIA

All submittals must be received in the Office of the Transportation Commissioner no later than 12:00 Noon (Boston time) Friday, July 6, 1990. A shortlist of consultant proposals shall be determined based on the following criteria:

- An understanding of the scope of services.
- Experience and qualifications of Project manager and staff.
- Organization of staff and support personnel; and,
- Prior experience and performance on projects of similar scope.

The Transportation Commissioner reserves the right to request an oral presentation of two or more of the consultants submitting bids to select the proposal which he deems to be in the best interest of the City of Boston.

Proposals should be submitted to the Transportation Department, One City Hall Plaza, Room 721, Boston, MA 02201.

CITY OF BOSTON,
RICHARD A. DIMINO,
Commissioner

(June 25.)

ORDINANCE RELATING TO HEALTH AND SAFETY WORKPLACE SMOKING POLLUTION CONTROL

Coun. HENNIGAN CASEY, on behalf of the Committee on Government Operations, submitted the following:

Report on Docket No. 0152, ordinance relating to Health and Safety Workplace Smoking Pollution Control (referred December 14) recommending passage of the ordinance in the following new draft:

City of Boston

In the Year Nineteen Hundred and Eighty-Nine
An Ordinance Workplace Smoking Pollution Control Ordinance

Be it ordained by the City Council of Boston, in accordance with the provisions of Massachusetts General Laws Chapter 43B, Section 13, and any other applicable law, as follows:

Whereas, the use of tobacco for smoking purposes is found to be increasingly dangerous and life-threatening, not only to the person smoking, but also to the non-smoking person who is required to breathe air contaminated by environmental tobacco smoke; and

Whereas, the most pervasive intrusion of the non-smokers' right to a healthy, unpolluted air space is the uncontrolled smoking in the workplace; and

Whereas, the Boston City Council's intent, by the passage of this Ordinance, is to protect the health and welfare of the non-smoker by regulating smoking and the discomforting effect it creates in the confined environment of the work place; Be It Therefore Ordained That:

SECTION ONE: Title — This Ordinance shall be known as the Boston Workplace Smoking Pollution Control Ordinance.

SECTION TWO: Scope of the Ordinance — Because of the smoking of tobacco or any other weed or plant is extremely dangerous to health and is a cause of material annoyance and discomfort to those employees who are exposed to it and have, of economic necessity, to work in the confines of a workplace, the City Council hereby declares that the purposes of this act are (1) to protect the public health and welfare by regulating smoking in the workplace, and (2) to minimize the toxic effects of smoking in the workplace by requiring an employer to adopt a policy that will accommodate, insofar as possible, the preferences of non-smokers and smokers, and if a satisfactory accommodation cannot be reached for all employees, to prohibit smoking in the workplace.

This Ordinance does not prevent an employer from totally prohibiting smoking in the workplace. If an employer allows employees to smoke in the workplace, the employer must make reasonable accommodation for the preferences of both non-smoking and smoking employees; the employer must give particular preference to employees who, as a result of either a cardiovascular illness, pulmonary illness, or any other physical condition affecting the eyes, nose and throat, are sensitive to the discomforts of tobacco smoke. If an accommodation satisfactory to all affected non-smoking employees cannot be reached, the employer must prohibit all smoking in the workplace.

All non-smoking areas must be designated and conspicuously marked with signs.

SECTION THREE: Definitions — As used in this Ordinance:

- (1) "Inspectional Services Department" means the municipal department, division, unit, or body of the municipality charged with regulating and/or enforcing the health laws or regulations in the City of Boston;
- (2) "Person" means any individual person, firm, partnership, association, corporation, company, organization, or legal entity of any kind;
- (3) "Employer" means any person who employs one or more individual persons;
- (4) "Employee" means any person who is employed by any employer in consideration for direct or indirect monetary wage or profit;
- (5) "Place of Employment" means any indoor area or portion thereof under the control of an employer in which employees of the employer perform services but which is not generally accessible to the public;
- (6) "Workplace" means an area in a place of employment where one or more employees are routinely assigned and perform services for their employer. "Workplace" includes, but is not limited to, offices, eating areas, as well as enclosed motor vehicles, ships, boats, and airplanes;
- (7) "Smoking" means the inhaling, exhaling, burning or carrying of any lighted cigarette, cigar, pipe, or other article, or paraphernalia for tobacco or any other weed or plant, and;
- (8) "Bar" means any indoor area open to the public devoted to the sale and service of alcoholic beverages for on-premises consumption and where the service of food is only incidental to the consumption of such beverages. Service of food shall be considered incidental if the food service generates less than forty percent of total annual gross sales. Any bar that generates forty percent or more of total annual gross sales from the sale of food for on-premises consumption shall be a food service establishment.
- (9) "Enclosed" means an area, other than a public lobby, which is closed in by a roof and four walls or sides or partitions, either complete or partial, with appropriate openings for ingress and egress.

SECTION FOUR: Regulation of Smoking in the Workplace —

- (1) Each employer who operates a workplace in Boston must implement, maintain, and conspicuously post for all employees to see, a written smoking policy which will contain, at a minimum, the following provisions and requirements:
 - (a) Any employee may object to his or her employer about the smoke hazard or discomfort in his or her workplace. Using existing means of ventilation or separation or partition of the work space, the employer must attempt expeditiously, within thirty (30) days of the initial date of objection, to reach a reasonable accommodation, insofar as possible, between the preferences of all the non-smoking and smoking employees. However, an employer is not required by this Ordinance to make any expenditures or structural changes to accommodate the preferences of non-smoking or smoking employees.
 - (b) If an accommodation which is satisfactory to all affected non-smoking employees can-

not be reached in any given workplace, the preference and right of the non-smoking employees to work in a healthy atmosphere free from the hazards or discomforts of tobacco smoke prevail and the employer must prohibit all smoking in the workplace. Where the employer prohibits smoking in either the entire workplace or in any portion therein, the area(s) in which smoking is prohibited must be clearly and conspicuously marked with signs.

- (2) The employer's smoking policy must be announced to all employees and posted conspicuously in all workplaces under the employer's jurisdiction in Boston.
- (3) Anyone who becomes an employer in Boston after the passage of this Ordinance must, within three (3) months of becoming an employer, adopt, implement, maintain, and conspicuously post for all employees to see, a written smoking policy with all the provisions mentioned herein.

SECTION FIVE: Exemptions — This Ordinance is not intended to regulate smoking in the following places and under the following conditions within Boston:

- (1) A private home which may serve as a workplace;
- (2) Any office space leased or rented by a sole independent contractor for his or her own use;
- (3) A business used exclusively for the sale of tobacco products;
- (4) A bar; or
- (5) This Ordinance shall not void pre-existing collective bargaining agreements affecting smoking in the workplace. Upon the expiration of any such collective bargaining

agreements, this Ordinance shall be implemented.

SECTION SIX: Enforcement —

- (1) The Inspectional Services Department, having received a written and signed letter of complaint from an employee citing a violation of this Ordinance, must enforce, within thirty (30) days, the entire Ordinance against violations by either of the following actions:
 - (a) Serving written notice to comply to an employer, with a copy of the notice to the complainant, requiring the employer to correct, within ten (10) days, any violation of any section of this Ordinance. The employer must also be sent a copy of this Ordinance at the time notice is served. Upon receiving a second signed complaint at the Inspectional Services Department for the same or continued violation by the same employer, and failing all other attempts by the Inspectional Services Department to expeditiously, and within thirty (30) days, mediate the complaint, the complaint must be resolved by;
 - (b) Calling upon the attorney for Boston to maintain promptly an action for an injunction to enforce the provisions of this Ordinance, to cause the correction of any violations of this Ordinance and for assessment and recovery of a civil penalty for any such violation;
- (2) An employer who violates this Ordinance shall be liable for a civil penalty, not to be less than fifty (\$50.00) dollars or to ex-

ceed three hundred (\$300) dollars, which penalty shall be assessed and recovered in a civil action brought by the attorney for Boston in any court of competent jurisdiction. Each day such violation is committed by an employer or permitted to continue by an employer shall constitute a separate offense and shall be punishable as such. Any penalty assessed and recovered in an action brought pursuant to this paragraph shall be paid over to the treasury of Boston and become part of the general fund.

- (3) In undertaking the enforcement of this Ordinance, the City of Boston is assuming an undertaking only to promote the health and general welfare of the working public. It is not assuming, nor is it imposing on its officers and employees, an obligation for breach of which it is liable in money damages to any person who claims that such breach proximately caused injury.

SECTION SEVEN: Nonretaliation Clause — Non-employer shall terminate, without due cause, or discriminate against any employee solely because the employee has exercised his or her rights under this ordinance.

SECTION EIGHT: Severability — If any provision of this Ordinance is declared invalid or unenforceable by a court of competent jurisdiction, the other provisions of the act shall not be affected thereby, but shall continue in full force and effect.

SECTION NINE: Effect on Other Laws — Nothing in this Ordinance shall be construed to permit smoking in any area in which smoking is or may hereafter be prohibited by law including, without limiting the generality of the foregoing, any provision of the Massachusetts General Laws, any Ordinance or by-law or any fire, health, or safety regulation.
